

# COOLIDGE WIRES READ IN OIL SCANDAL

## Park Board To Control Park Management Wins Favor In Council

Mayor Authorized to Appoint Committee Which Will Study Plan  
WANT SUPERVISOR OF PLAY  
Council Asked to Appropriate Sum for Playground Program

Another step in the direction of "a systematic plan of park and playground extensions and improvements" was taken by the common council Wednesday evening when it adopted the resolution introduced by Alderman George T. Richard calling for the appointment of a committee to recommend a plan whereby a park commission can be created.

The council also considered a proposition brought before it by Dr. G. A. Ritchie and Louis Bonini, representing the Appleton Woman's club and the chamber of commerce, for a three months' summer program of playground supervision.

Alderman Richard's resolution received the support of Mayor Henry Reuter who believed that the park commission plan is the best means of supervising and improving parks. The mayor will appoint a committee of six aldermen, one from each ward, who, with the assistance of Theodore Berg, city attorney, will study the park commission idea, and endeavor to work out a plan that will be satisfactory to the city of Appleton.

**TOO MUCH WORK**  
Control of the park system, in the opinion of the mayor, should be transferred to a board of park commissioners, for the council has enough work to do without taking the responsibility for managing and improving the parks. The park acreage of Appleton has been increasing gradually so that it now has a system of parks, though in the undeveloped stage, that is not surpassed anywhere in Wisconsin, he said.

He suggested that the council appropriate some annually for the park commission to spend and gradually carry out a program of park improvement.

Appleton now has a total park area of 156 acres. The last park purchased is in the Fourth Ward and includes about 50 acres. The acreage of the other parks is as follows: Pierce park, 38 acres; Erb park, 30 acres; Alicia park, 14 acres; City park, 8 acres; Jones park, 6 acres; Bellair park, eight acres.

Most of these parks are still in the undeveloped stage. Very little improvement was possible with the \$5,000 annual appropriation which includes caretakers' salaries as well as care of skating rinks.

**AFRAID OF POWERS**  
Alderman John F. Lappen cautioned the council to "go slow" in creating a park commission. He said that the council already provide a plan for park commissioners and that under this plan park commissioners

(Continued on page 16)

## A. T. AND T. OPENS FIGHT FOR RADIO

New York—A legal fight for control of radio broadcasting is forecast as a result of the suit by the American Telephone and Telegraph Co. for a permanent injunction restraining station WEN, operated here by Marcus Loew and George Schubel, from broadcasting.

The request for an injunction is based on the contention that most broadcasting stations operating in the United States are using apparatus that infringes on the patent rights of the A. T. & T. which operates station WJAT.

Should the suit be successful, similar actions probably will be started against other broadcasting stations except about 40 which have made arrangements with the A. T. & T.

## ACTORS AND PRODUCERS CONCLAVE IS DEADLOCKED

New York—Negotiations between the Actors Equity association and the Producing Managers association have reached a deadlock over the issue of Equity's demand for an all-equity show, and a theatrical strike, June 1, appears certain. Spokesmen for both organizations Wednesday asserted there would be no compromise on the issue. A statement signed by 27 producers' representatives declared that the equity show would be "a disaster to act in the theatre, and a calamity, unjust and un-American."

## Face Doom With Smile

Morris Barlow and Joe Diamond, shown handcuffed together above left to right, were photographed in Brooklyn a few minutes after the judge had sentenced them, with two others, to die for the slaying of two bank messengers. The Diamonds are brothers.

## Philippine Question Is 1924 Campaign Issue

Democrats Will Promise Independence Within Certain Specified Time, If Elected.

By DAVID LAWRENCE  
Copyright 1924 by The Post Pub. Co.  
Washington, D. C.—The Democrats will make an issue of President Coolidge's refusal to approve the request of the senate and house of representatives of the Philippine islands for the establishment of independence.

For 26 years the Filipinos have been promised that when the proper time came they would be accorded independence. President Coolidge has definitely gone on record as stating that the proper time has not arrived and that there remain to be achieved "greater advances on the road of education, culture, economic and political capacity."

Just when the Filipinos will measure up to these standards is not difficult to guess—probably never in the lifetime of any of the present Filipino leaders. For, if the truth be known, the United States does not consider that many of the smaller Latin-American countries have reached the

## SHEBOYGAN CHORUS GIRL KILLED IN AUTO CRASH

Milwaukee—Morgie Thomas, 23, Sheboygan chorus girl in a local burlesque show, was killed, and William Hopp, 31, Wauwatosa, escaped injury when a roadster in which they were riding early Thursday crashed into a concrete light pole near the Grand avenue viaduct.

Hopp now is in the county jail charged with manslaughter in the death of the girl. The accident occurred at the intersection of Grand and Lincoln streets. The car was driven by Hopp. A bottle of liquor was found in the car by deputies who went to the scene of the accident.

When taken to a local hospital after the accident, Hopp was listed as "alcoholic" but he denied to officers he had been drinking.

## WIRE REVEALS SUICIDE OF GOTHAM FLOUR BROKER

New York—William A. Cockley, a flour broker, shot and killed himself in a hotel Wednesday night. His body was found after his wife had notified the police that she had received a telegram from him at the dinner hour, reading:

"I have mailed you an important letter. It will tell all."

## BILLS CHARGE FRAUD IN OIL LAND LEASING

Injunctions Will Be Asked Against Further Drilling on Naval Reserves

By Associated Press  
Washington, D. C.—Cancellation of the government oil leases to the Do Henry and Sinclair interests will be sought in bills of civil to be filed by the government oil counsel next week.

The bills will ask for return of the naval reserves to the government on the grounds that "fraud and illegality were involved."

Injunctions also will be asked against further drilling and withdrawal of oil by the Sinclair and Do Henry Cos., and the suit will be requested name receivers to control the properties pending completion of the litigation.

At the request of the special counsel, a special grand jury will be impaneled here about April 1 to consider the evidence so far brought out in the inquiry.

The bills for injunctions, being prepared by Alice Pomeroy and Owen J. Roberts, will be filed in the federal district courts for Wyoming and southern California.

Thursday, March 13 has been set by the federal judge at Cheyenne for a preliminary hearing on the Sinclair contracts, at which the government counsel will be present.

## BUTLER REGIME CUTS FELONIES

Director of Public Safety Seeks to Enlist Open Aid of Women Voters

Philadelphia, Pa.—Since Director of Public Safety Butler's induction into office the number of felons tried in Philadelphia has dropped 20 per cent. Assistant District Attorney Maurice J. Speiser said Thursday. Only a small percentage of the 2,087 indictments returned by the grand jury during the last two months were for felonies.

"Butler has cleaned out the dives, the poolrooms, in fact all the hangouts of the criminal element," said Speiser. "The crooks have learned that it is better to give Philadelphia a wide berth."

Speaking before the twenty second ward branch of the Women Voters of Philadelphia, General Butler Wednesday night called upon them to march to the city hall to show the "cheap politicians" that women are in favor of law enforcement.

"We are approaching a crisis in the city's administration," he said. "The fact that nobody has yet stopped us in our rampages proves to me that the majority are for us. The rapping element, is the poison squad who don't dare come out in the open, sneak around corners and say the majority is against us. This city is only 35 per cent clean now. We won't live to finish the work unless you people get behind us."

## STRIKERS IN CLASH WITH BADEN POLICE

Berlin—Strikers and police clashed at the Baden Aniline Dye works at Ludwigshafen Thursday and casualties were suffered on both sides, say dispatches received here.

A partial strike was declared Wednesday owing to the refusal of a number of the men to work nine hours daily. Strikers Thursday morning forcibly entered the works, drove out those who had reported for duty and prevented others from entering. They are alleged to have opened fire on the police when the latter arrived, wounding several.

The number of casualties among workmen is unknown, as they carried off their fallen comrades.

## G. O. P. REPRESENTATIVES VOTE AGAINST BONUS BILL

Washington, D. C.—Agreement to report a soldier bonus bill was voted, 16 to 3, Thursday by the house Ways and Means committee.

No action was taken on the form of the bill to be reported Representative Bacharach, Republican, New Jersey, presented his plan for limiting compensation to paid up insurance, and other plans were discussed but the committee decided to go into all of those submitted Friday.

Representatives Treadway, Massachusetts, Tilson, Connecticut, and Mills, New York, Republicans were those voting against approval of any bonus measure.

No action was taken on the form of the bill to be reported Representative Bacharach, Republican, New Jersey, presented his plan for limiting compensation to paid up insurance, and other plans were discussed but the committee decided to go into all of those submitted Friday.

## Tax Returns Kept Secret In Oil Probe

By Associated Press  
Washington, D. C.—President Coolidge declined Thursday to turn over to the oil committee the tax returns of individuals and corporations prominently mentioned in the oil investigation.

Replying to a senate resolution making the request, the President said he had been advised by the acting attorney general that he was without authority to comply.

The president offered however, to cooperate with the secretary of the treasury in an effort to secure an amendment to prevailing regulations which would permit the oil committee to "inspect" the returns, if it so desired.

## SEEK IDENTITY OF BRIBED LAWMAKERS

House Members Move to Investigate Bribery Charges of Chicago Grand Jury

By Associated Press  
Washington, D. C.—A movement gained ground in the house Thursday to establish the identity of the two representatives charged in the report of a Chicago grand jury with being guilty of bribery.

The situation was discussed at a conference attended by Speaker Gillette, Republican leader, Representative Longworth, Chairman, Snell of the rules committee and Democratic Leader Garrett, who has introduced a resolution of inquiry.

Afterward Mr. Snell announced that the rules committee to which the Garrett resolution was referred would meet later in the day. It was indicated that the committee might take some action to obtain information from the department of justice.

The situation was discussed at a conference attended by Speaker Gillette, Republican leader, Representative Longworth, Chairman, Snell of the rules committee and Democratic Leader Garrett, who has introduced a resolution of inquiry.

## SENATE SEEKS TO HASTEN CUT IN TAX

Finance Committee Decides to Attempt Immediate Reduction of 25 Per Cent

By Associated Press  
Washington, D. C.—The senate finance committee decided Thursday to seek immediate enactment of a joint resolution providing for a 25 per cent reduction in personal income taxes payable this year so that it may apply on the installment due March 15.

Provision for such a reduction was approved by the house in the revenue bill enactment of that measure, however, is not possible before March 15, and leaders hope by passage of a joint resolution to avoid the necessity of making refunds on first installments which now would have to be paid in full.

Chairman Smoot was instructed to confer with Chairman Green of the house Ways and Means committee on prospects for such action, and Mr. Green gave his approval. The one fourth reduction would apply to all personal income taxes of 1923 which are payable this year.

## OHIO HOUSE MEMBER MAY SUCCEED DENBY

Washington, D. C.—Theodore E. Burton, present member of the house and former senator from Ohio, is one of those now being considered by President Coolidge for appointment as secretary of the navy.

White House officials refused Thursday to discuss the possibility of his appointment but it was confirmed that he was on a list of a half dozen now before the president. The Ohio representative is understood to have the support of Senators Fess and Willis of Ohio, and despite his advanced age as one fitted by long experience to take over the navy coat.

All indications Thursday pointed to the selection of a secretary to succeed Edwin Denby before the end of the week.

Washington, D. C.—Charles R. Forbes, former director of the Veterans bureau, pleaded not guilty Thursday before a United States commission to charges of fraud, conspiracy and bribery handed down by a Chicago grand jury.

Bond was fixed at \$10,000 which Forbes immediately furnished. He will appear in federal court at Chicago for trial on March 17.

Washington, D. C.—Charles R. Forbes, former director of the Veterans bureau, pleaded not guilty Thursday before a United States commission to charges of fraud, conspiracy and bribery handed down by a Chicago grand jury.

## KNIGHT DENIES DEALINGS WITH OIL INTERESTS

Attorney Makes Statement in Reply to Enquiry from Rush L. Holland

Washington, D. C.—Samuel Knight whose nomination as special counsel in the Standard Oil Co. of California lease case has aroused opposition on the ground that he was counsel for a bank in which the Rockefellers were interested, informed government officials before accepting that he had never represented oil interests.

This was disclosed Thursday in an exchange of the telegrams leading to his appointment, made public at the White House.

Rush L. Holland, assistant attorney general sent this telegram to Mr. Knight on March 2:

"Do you now or have you at any time in recent years represented oil company? Are you in position to accept without embarrassment employment to represent the government in litigation which will involve the State of California and the Standard Oil Co. as to sections 16 and 35 in naval oil reserve Number 1?"

"If so about what compensation would you expect and could you undertake it at once, coming here for conference on notice? Will fully collect. Treat this telegram as strictly confidential."

**KNIGHT IS PREPARED**  
Mr. Knight's reply sent March 3 was: "Have not at any time represented an oil company or oil interests and am in a position to accept without embarrassment employment to represent the government in the litigation referred to in your wire of March 2. I am anxious to determine in advance what compensation I might reasonably expect and am willing to have it determined by department of authority having matter in charge. If selected I can arrange to undertake matter at once and come to Washington for conference whenever requested."

The telegrams were made public because of the statement of Senator Walsh, Democrat, Montana, and other senators that information had been received by them indicating that Mr. Knight had done some work for the Equitable Trust Co. of New York, which they said was a Rockefeller bank.

The date of the meeting has not been fixed and is said to depend on developments in the Teapot Dome inquiry at Washington. The meeting is understood to be intended as a bid for popular support of "a complete disclosure of official crookedness," according to some of those connected with the plans. It is said that the speakers will demand that the oil leases and Veterans bureau inquiries be carried to all possible limits in all directions.

## STATE WILL PROBE CHANGES IN POSTS

Civil Service Commission Investigates Shifts by Secretary of State

Madison—Investigation will be made by the State Civil Service commission not only of the dismissal of Alex J. Cobban, former automobile registration clerk of the secretary of state's office, but also of several shifts in the personnel of the state department, it was revealed when a resolution adopted by the commission Wednesday was made public by A. E. Garey, secretary.

Records of the meeting include the following: "On motion of Gena Thompson, seconded by E. J. Castle, the commission voted to determine causes for changes in positions and personnel recently made in the office of the secretary of state."

Secretary Garey said that the commission will look into other changes in the department. Following dismissal of Cobban and abolishment of the registration clerk's office, Secretary of State Zimmerman announced that C. A. Sakrisson, chief auditor, was appointed chief clerk as well and that Joseph P. Edwards, former chief clerk, was made corporation clerk.

## ANTI-VOLSTEAD GROUP ATTACKS DRY LEAGUE

By Associated Press  
Washington, D. C.—The Anti Saloon league was charged Thursday with being a representative of big business instead of the Christian churches, in an open letter sent to members of congress by the joint legislative committee for modifying the Volstead act.

The committee charged that the league had "broadcast" that it controlled congress and urged congress to investigate where the money for the league came from.

## ARMED AGENTS WILL FIGHT CANADA WETS

By Associated Press  
Albany, N. Y.—Armed prohibition agents will be stationed on the Montreal-New York highway to stop rum runners from Canada as soon as the highways are open to traffic, it was said Thursday by More Buckland, federal prohibition director in this district.

## Two Messages Sent M'Lean By President

Ex-Slave Of Jeff Davis Dead At 77

Jackson, Miss.—Isiah Montgomery, 77, former slave of Jefferson Davis prior to the secession of the Confederate states, died Wednesday night at his home in Mound Bayou, an exclusive Negro town, which he founded.

Montgomery served as a cabin boy under Admiral Porter of the federal fleet which operated in the Mississippi river during the Civil war. During reconstruction days, Montgomery and his brother bought the Ennis Field plantation from the Davis family. One of the most famous litigation cases in the Mississippi supreme court was over the plantation, in which the Montgomerys lost.

Montgomery had been trained by Jefferson Davis to be a private secretary and was well educated.

## BOB WILL SPEAK ON CROOKEDNESS

LaFollette and Brookhart Accept Invitation of Illinois Council

Chicago—Senators Robert M. LaFollette and Smith W. Brookhart and other Republicans insurgents have accepted invitations of the new formed Illinois Progressive council to speak at a mass meeting of protest here this month it was learned Thursday. It is said Senator LaFollette and others are discouraging talk concerning rumors that the meeting might be considered as closely akin to the opening of a third party movement.

The date of the meeting has not been fixed and is said to depend on developments in the Teapot Dome inquiry at Washington. The meeting is understood to be intended as a bid for popular support of "a complete disclosure of official crookedness," according to some of those connected with the plans. It is said that the speakers will demand that the oil leases and Veterans bureau inquiries be carried to all possible limits in all directions.

## OFFICER ON TRAIL OF ESCAPED MANIAC

Chippewa Falls—Unable to find trace of Thomas Holly, alias Frank Wilson, who eluded his guard Tuesday night by climbing through a window on a passenger train as it was approaching Greenwood City, Officer James Brady of the Winnebago county insane asylum who had charge of the man left Thursday for Marshfield to continue the search.

Holly was seen to enter Chippewa Falls on a freight train but police were unable to find him. The man declared to be criminally insane, was being returned from Fairbault, Minn., where he had taken refuge following his escape from the asylum.

## ENGINEER KILLED WHEN LIMITED LEAVES RAILS

Omaha, Neb.—The Pacific limited of the Chicago Milwaukee and St. Paul railroad was derailed at Peria, Ia. Engineer Pendy being killed and a number of passengers slightly hurt, according to advices received here. The locomotive went into a ditch and three of the cars of the all steel train were derailed.

## PRESIDENT PARDONS POST-WAR DESERTERS

Washington, D. C.—Rights of citizenship have been restored by President Coolidge to deserters from the army and navy whose offense was committed during the technical, but not the actual war period, between November 11, 1918, when hostilities ceased, and November 7, 1921, when peace finally was proclaimed.

# WOMAN DIES IN STREET CAR AFTER VISIT TO DENTIST

Mrs. Jacob Mauthe Succumbs to Heart Disease While on Way Home

When returning from a dentist's office where she had had a new set of teeth fitted, Mrs. Jacob Mauthe, 60, whose home was at 523 Madison, died on the 415 street car as the result of heart disease. Mrs. Mauthe was accompanied to the office of the dentist by her daughter, Miss Margaret Mauthe. Before leaving her dental work done, Mrs. Mauthe complained to the dentist, Miss Kathleen Boyle, that she was faint. After the work was done, Mrs. Mauthe found it difficult to get her breath and was assisted to the street car. When she was seated in the car, she fell to one side of the seat. A doctor was called, who pronounced the woman dead as the result of heart disease.

She is survived by her widower, four children, Joseph, Carl, Margaret and Norbert all of Appleton and one brother, Henry Schabo, also of Appleton.

The funeral service will take place at 2 o'clock Saturday afternoon from the home. Burial will be made in St. Joseph cemetery.

# RADSCH DESCRIBES SULPHATE HISTORY

Thilmany Mill at Kaukauna Was Second Sulphate Plant in Country

Pulp making from wood is a quite recent discovery although ground wood was used in the middle of the seventeenth century, declared R. M. Radsch, of Kaukauna, superintendent of the sulphate mill of Thilmany Pulp & Paper company in discussing the sulphate process Wednesday evening before the Industrial Forum of the Y. M. C. A.

"The soda process was used in England as early as 1854," said Radsch, "but it was not until 1884 that Dahl, a Swedish chemical engineer, discovered the graft sulphate process. From the pulp produced by this process is made the tough fibrous wrapping paper ordinarily known as kraft paper."

"The first sulphate pulpmill on this continent was erected at East Angles, Quebec, in 1910, and in 1911 the building of the mill at Kaukauna was commenced, and in 1913 it began a career of successful operation. There are now about 35 sulphate mills in America."

"Kraft can be made from any resinous wood, but the best fiber is found in our northern woods, such as spruce and fir. Many mills are being built in the south because of the accessibility of great forests of pine and the cheaper, if less competent, negro labor. The general preparation of the wood for the sulphate process is the same as that for sulphite."

Mr. Radsch took up in detail the bookkeeping and the intricate chemical reactions of the process, dwelling particularly on chemical reclamation. Upon the efficiency of this part of the process depends the success of the sulphate mill, he said.

# STUDY INDIANS TO PLAY THEIR MUSIC

Not only enjoyment but real education in Indian music will be given to those who attend the concert of Edna Woolley-Lieurance, soprano, and her composer-husband, Thurlow Lieurance, which will take place at Lawrence Memorial chapel on Friday evening. The concert is being managed by the music department of Appleton Women's club.

Mr. Lieurance has spent 20 years studying the lives and interests of the American Indians so that he might interpret their experiences into music. While studying the Indians, Mr. Lieurance has made a collection of

# OH, FOR THE LIFE OF A TRAFFIC COP

New York City was struck by a storm of snow and sleet the other day. The streets were flooded and passage almost impossible. One fair victim was caught at 33rd street and Eighth avenue. Traffic Officer Henry C. Windell thereupon picked her up and just as the photographer happened along was about to hand her over to Officer John McGuire.

# FOUR WILL ATTEND LEGION CONCLAVE

Oney Johnston post will be represented by four men at the annual state meeting of officers of the American legion at Stevens Point Saturday and Sunday. They are L. Hugo Keller, commander, Alfred C. Bosser, adjutant, John Hantschel and Martin Peeters. These men expect to leave Friday for the convention city.

More than 500 legionnaires are expected at the conference, where plans for the work of the coming year will be discussed. Speakers nationally prominent in legion affairs will be present. The gathering also gives opportunity to exchange ideas as to post activities.

Plans will be launched for the next state convention.

Albert Hohman of Green Bay, was in Appleton Wednesday on business.

Waiters on skates serve tea to skaters at some of the Swiss hotels.

# Why Druggists Recommend Swamp-Root

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder medicine. It is a physician's prescription. Swamp-Root is a strengthening medicine. It helps the kidneys liver and bladder do the work nature intended they should do.

Swamp-Root has stood the test of years. It is sold by all druggists on its merit and it should help you. No other kidney medicine has so many friends.

Be sure to get Swamp-Root and start treatment at once.

However, if you wish first to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention this paper.

# Let the Kiddies Romp Outdoors In All Weathers

There is Nothing Like Fresh Air Play to Build Sturdy Bodies. If Colds Come Treat Externally

Children should play outdoors daily in winter as well as in summer. To keep them indoors so much is a mistake. For healthy growth they need and must have lots of outdoor exercise.

Of course, some colds will come as a result of exposure. But constant internal dosing must not be thought of. Vicks answers the need. It is externally applied and can be used frequently without upsetting the digestion.

When rubbed on over throat and chest Vicks acts externally like a liniment or plaster. At the same time the ingredients, vaporized by the body heat, are inhaled directly into the affected parts.

Vicks is the ideal treatment for children's cold troubles.

## RAISING TIMOTHY HAY UNPROFITABLE FOR FARMERS HERE

Alfalfa and Clover Gives Bigger  
Returns and Enriches  
the Soil

By W. F. WINSEY

While a large number of farmers in Outagamie county are making money in dairying, raising livestock and other farm activities, a financial condition prevailed, according to the census report of 1919 on the farms that ought to command the serious consideration not only of farmers themselves but also that of banking institutions, businessmen and the public with a view toward improvement.

The same unimproved condition is in less or greater evidence on the farms of each community of the state and probably accounts for the long list of farms for sale in each and every farm community.

The census of 1919 reports, made from actual contact with and questioning of farmers, states that on the farms of Outagamie county 8,656 acres were planted to timothy in 1919, 47,713 acres to mixed timothy and clover, 1,328 acres to clover and 321 acres to alfalfa.

It is probable that of the mixed crop of timothy and clover consisting of 47,713 acres, two-thirds of the crop produced was timothy and one-third clover, which means 31,808 acres were used for timothy hay and 15,905 acres were used for clover in the mixture.

**BIG TIMOTHY ACREAGE**  
Adding the pure timothy acreage, 8,656, to the mixed timothy acreage, 31,808, gives 40,464, the total acreage of the farms of Outagamie county devoted to the raising of timothy hay in 1919. Adding the total acreage of pure clover 1,328, to the total in the mixture of clover and timothy, 15,905, gives the total acreage of clover for Outagamie county for 1919, as 17,233 acres.

As the total acreage of cultivated farm lands in Outagamie county is 296,566 acres and the total acreage of timothy hay was 40,464, it appears that about one-seventh of the land under cultivation in the county in 1919 was used in the production of timothy hay and six-sevenths to the production of all other crops.

Timothy hay has an average farm value before it is baled of about \$8 a ton and gives an average yield of one and one-half tons to the acre while its value as feed for dairy cattle and other farm animals is about the same as oats straw.

**SMALL RETURN**  
Eight dollars a ton, the average farm value of timothy hay, multiplied by the number representing the average yield of timothy hay to the acre, one and one-half, gives the income of the farmer on each acre of land devoted to the raising of timothy hay, which is \$12. In the same year, 1919, in which 40,464 acres of timothy hay was raised the farmers who raised that timothy hay got in return for their work \$485,568 or its equivalent. And if all the farmers of the county had raised nothing but timothy hay they would have had \$485,568 to divide for their season's work.

Raising timothy hay for marketing or feeding purposes is a disease that the farm lands of Outagamie and other counties of the state are suffering from. A crop of timothy hay makes a very severe drain on the fertility of the soil and give no corresponding financial return to the owner.

**BETTER RAISE CLOVER**  
The raising of alfalfa for hay and sweet clover for pasture, is one of the remedies proposed by E. L. Luther, superintendent of farmers' institutes for Wisconsin, and farm institute speakers of the Wisconsin college of agriculture, for the timothy hay-raising epidemic in Wisconsin.

Alfalfa hay has an average farm value of \$20 a ton, an average yield for season of two and one-half tons to the acre, which means a \$50 an acre income for the raiser. It also improves the fertility of the soil where it grows and has a feeding value several times greater than timothy for all kinds of farm animals.

Without considering his interest on investment, insurance depreciation taxes and cost of labor, the man who raises timothy hay with the farm value of the product of an acre at \$12 has not as good a prospect for profit as his neighbor who raises alfalfa hay with a farm value per acre of \$50.

Mr. Luther says that no alfalfa raisers are complaining seriously about hard times and timothy raisers will cease complaining when they stop raising timothy and get a good start in the production of alfalfa.

## SPANISH WAR VETERANS WILL MEET BI-WEEKLY

In accordance with a prevailing sentiment among members of the local camp of United Spanish-American War Veterans, the camp at its meeting Tuesday evening decided to hold semi-monthly meetings hereafter instead of monthly meetings. The dates of meetings have not as yet been set, but they probably will be on the first and third Tuesdays of the month.

The Burson bill in congress for increasing pensions of veterans of the Civil war and the Spanish-American war was favorably discussed, and members were urged to write individually to Congressman George J. Schneider urging his support of the measure.

## DON'T PAY TAX TO INCOMES ASSESSOR

March 15 Is Last Day for Filing  
Income Returns,  
Toonen Says

Some persons in filing their income tax returns at the office of Leo Toonen, assessor of incomes, make the mistake of remitting their payments at the same time. State income taxes are not paid at the income office, as in the case of federal income taxes, but at the office of the city treasurer the following January after the date of making the returns. The reason for this is that 70 per cent of the income tax is retained by the city, 20 per cent is allotted to the county and 10 per cent is forwarded to the state treasury. It is only in case of persons who intend to move out of the community that the income office will accept payments.

**ONLY FEW DAYS LEFT**  
The assessor of incomes' office is located in the county courthouse and not in the city hall, as some persons think, probably because the federal office is located in that building. March 15 now is the final date for making returns, the date for filing federal income returns. But Mr. Toonen advises that returns be filed as early as possible.

Under the state income tax law the following income is taxable: Salaries, wages, bonuses, commissions, interest, professional services, rent of real estate, royalties, dividends, business profits, endowment insurance received in excess of the premiums paid, refund for taxes which have been allowed as deductions on previous returns, stipends and gifts received by clergymen, rental value of residences furnished to pastors, teachers and other public employees.

**SALESMAN IS BANKRUPT;  
LIABILITIES TOTAL \$2,252**

A. P. Anderson of Appleton, meat cutter and salesman, has been adjudicated a bankrupt. His liabilities are listed at \$2,252.87 and his assets consist of an automobile and household furniture. The first meeting of creditors will be held at the office of the referee in bankruptcy Saturday, March 15.

**PRIEST STRICKEN AS HE  
OFFICIATES AT SERVICE**

The Rev. Theodore Roemer, O. M. Cap., pastor of St. Peter church at St. Peter, was stricken with illness during services Sunday morning and was removed from the altar. He is the son of Henry Roemer, Eighteenth. It is believed he is suffering with appendicitis.

## IOWA PHYSICIAN MAKES STARTLING OFFER TO CATARRH SUFFERERS

Found Treatment Which Healed His  
Own Catarrh and Now Offers to  
Send it Free to Sufferers  
Anywhere

Davenport, Iowa.—Dr. W. O. Coffey, Suite 1870, St. James Hotel Bldg., this city, one of the most widely known physicians and surgeons in the central west, announces that he found a treatment which completely healed him of catarrh in the head and nose, deafness and head noises after many years of suffering. He then gave the treatment to a number of other sufferers and they state that they also were completely healed. The Doctor is so proud of his achievement and so confident that his treatment will bring other sufferers the same freedom, it gave him, that he is offering to send a 10 days' supply absolutely free to any reader of this paper who writes him: Dr. Coffey has specialized on eye, ear, nose and throat diseases for more than thirty-five years and is honored and respected by countless thousands. If you suffer from nose, head or throat catarrh, catarrhal deafness or head noises, send him your name and address today.

Alfalfa hay has an average farm value of \$20 a ton, an average yield for season of two and one-half tons to the acre, which means a \$50 an acre income for the raiser. It also improves the fertility of the soil where it grows and has a feeding value several times greater than timothy for all kinds of farm animals.

Without considering his interest on investment, insurance depreciation taxes and cost of labor, the man who raises timothy hay with the farm value of the product of an acre at \$12 has not as good a prospect for profit as his neighbor who raises alfalfa hay with a farm value per acre of \$50.

Mr. Luther says that no alfalfa raisers are complaining seriously about hard times and timothy raisers will cease complaining when they stop raising timothy and get a good start in the production of alfalfa.

## ACID STOMACH!! GAS, INDIGESTION

Chew a few Pleasant Tablets  
—Stomach Feels Fine!

Instant stomach relief! Harmless! The moment "Pape's Diapepsin" reaches the stomach all distress from acid stomach or indigestion ends. Immediate relief from flatulence, gases, heartburn, palpitation, fullness or stomach pressure.

Correct your digestion for a few cents. Millions keep it handy. Drug-gists recommend it.

## The New Tailored Suits

The new tailored suit is extremely smart in appearance, in soft flannel checks, Poret, Twills and the new Flamingo Materials, box and straight line coats, and severely plain tailored skirts, priced from \$25 to \$65.00.

## The New Flannel Frocks

These new frocks are of soft checked and striped woolsens, straight of line, yet varied by means of contrasting collars and cuffs, or a touch of braid. Distinctively tailored, delightful in color and mode, one could ask nothing more of them, priced at \$19.75, \$25.00, \$29.75.

## The New Sport Coats

These are quite the smartest Sport Coats you could imagine, swagger models, delightfully soft fabrics, fleecy in texture, light in weight, yet comfortably warm. Many models have the scarf collar. Plain colors as well as checked and striped designs priced from \$11.75 to \$45.00.

## The New Dress Coats

The dress coats are of soft, lustrous, velvety fabrics that fashion will wear this Spring season. Some are straight line, others in wrap effects, and still others with the circular tendency to vary their slimness. The colors offer all the new Spring shades to choose from, also navy and black. Priced from \$32.50 to \$75.00.

## The New Skirts

Skirts of Silk, plaided, of woolsens, in stripes and plaids; or novelty fabrics, tailored or wrap around, from these you may choose and be assured of successful selection, priced from \$9.75 to \$14.50.

## The New Silk Frocks

Frocks in the loveliest fabrics that fashion has chosen for Spring, and in styles so varied that they afford a wide range for selection. For every daytime and evening occasion, of soft Canton Crepes, Satin Cantons, Flat Crepe, Ramee and Roshanara Crepe. Finished and trimmed in many clever ways, slender of line to lend further grace to the figure priced from \$9.75 to \$59.75.

## The New Hats

It's surprising to see how many variations of style these New HATS achieve, and how simply they do it. The cloche, the tricorne, the Turban, the poke, the mushroom, the off-the-face shape, they are all here—priced from \$3.00 to \$18.00.

## New Dress Linens

89c yard

Dress Linens, of pure linen flax, thoroughly shrunk, comes in 17 colors, all this spring's newest shades, 36 inches wide, specially priced at 89c yard.

### THE LENTEN SEASON

Religion is a world fact. No people  
has been found so degraded as not to  
manifest some expression of the religious  
instinct; for men are everywhere con-  
scious of their limitations and their needs.  
Religion is not a human invention but an  
inner necessity, rooted in man's nature.  
There is in man an inner impulse toward  
God, for he feels he cannot solve the mys-  
teries and contradictions of life without  
the belief in some being above him to  
whom he is intimately related.

Religion has developed various cus-  
toms, ceremonies and institutions, one of  
the most generally accepted among  
Christian people being Lent on which  
we are just entering. This season is of spe-  
cial preparation for Easter is observed by  
the Western, Eastern, and Lutheran  
churches and by the church of England.  
The word "Lent" comes from an Anglo-  
Saxon term meaning spring, so that its  
significance is The Spring Fast. It is ob-  
served in commemoration of Jesus' forty  
days fast in the wilderness, and in sev-  
eral of the churches is designated by a word  
meaning forty. It is not known how ear-  
ly this custom was observed, although it  
is known that in the last of the second  
century the observance of Easter was  
preceded by a season of fasting. In the  
English church Lent was commanded to  
be observed by Ercanbert before the year  
800.

The observance of a season of religious  
meditation can but be of benefit to a com-  
munity; for religion is a power in the  
world and its greatest moralizing and civ-  
ilizing force. Morality is the largest  
factor in the progress and stability of a  
community or a state, and morality loses  
its authority, power and vitality when it  
is divorced from religion. It is like a  
dead branch in which the sap has been  
dried. There are persons who may main-  
tain self-respect and respectability with-  
out a recognition of religion, but a com-  
munity that casts aside all religious sanc-  
tions would soon become a place where no  
right thinking man would care to live.  
All higher human culture is the product  
of religion, even mental culture receiving  
its largest stimulation from it. Indeed  
the most ancient history of civilization is  
essentially a history of religion. Litera-  
ture, science, history, jurisprudence were  
the function of the priests. History also  
teaches that all the great fruitful and  
productive periods of social and national  
life have been periods when religion has  
flourished and that a decline of religion  
has been accomplished by a decline of the  
state.

It is a matter of significance in any  
community when there are indications  
that interest in religion is developing in  
its midst. Such seems to have been the  
case in Appleton during the past few  
years. The erection of the Y. M. C. A.  
and the support given it by our commu-  
nity is one indication. Another is the or-  
ganization of the religious day school and  
the summer vocation school, Appleton be-  
ing in advance of nearly every city in the  
state in this matter. The erection of  
several new churches in recent years, and  
the fact that one of the English Lutheran  
churches and the Methodist church are to  
build new edifices the present summer al-  
so sustains the suggestion. It is usually  
held that after a great war religion suf-  
fers a relapse, as it were, and this ap-  
pears to be true in Europe at the present

time, but this is certainly not the case in  
Appleton; for there is every indication  
that religious developments are keeping  
pace with other advancements in our com-  
munity life. It is to be expected that the  
observance of Lent, which is now begin-  
ning, will help stimulate this healthy in-  
terest in higher and better things and  
that our city will be accordingly benefit-  
ed by it.

### PAYING AND SPENDING TAXES

Charles W. Nash, president of the Nash  
Motors company, says: "The men who  
pay taxes in Wisconsin are just as much  
interested in the advance of the state as  
the men who spend the money." This  
is a proposition politicians, particularly  
those in control of the state of Wiscon-  
sin, challenge. They proceed on the the-  
ory that corporations and business institu-  
tions that pay taxes are in the main ene-  
mies of the state and engaged in exploi-  
tation. They will not say that all busi-  
ness is of this character, but the force and  
inference of their speeches and of their  
legislative acts make the application gen-  
eral. Taxes and business are a penalty,  
and therefore the severer the penalty the  
better.

A prosperous enterprise is to politicians  
at once an object of suspicion and pre-  
judice. If it could be reduced to the  
starvation point, or to the place where it  
could with difficulty meet its operating  
and other costs, they would be better  
pleased. To bring industry to this state  
they wish to increase taxes to the limit.  
They spend money prodigally, as is shown  
by the enormous increase of public expen-  
ditures in the last ten years.

Strangely enough, they appear to con-  
vince thousands of persons, whose pros-  
perity depends upon remunerative em-  
ployment, of the soundness of their pro-  
gram to burden industry and to retard  
it development. It is true, as Mr. Nash  
adds, that encouragement of industry for  
a few years would make Wisconsin the  
most prosperous state in the Union, not  
merely for those who invest their money  
in it, but for the whole population, who  
directly and indirectly derive benefit from  
a healthy condition of manufacturing and  
farming alike.

The Nash company has been tempted  
to move from Wisconsin because of what  
it considers unfair burdens placed upon  
industry by politicians. It employs near-  
ly eight thousand men. We are not in a  
position to lose industries of this mag-  
nitude, nor to invite their loss. If it were  
not for them the politicians at Madison  
would be deprived of millions of dollars  
that they delight in spending, and Wis-  
consin would destroy the balance between  
manufacturing and agriculture which is  
essential to sound prosperity and pro-  
gress, and which does not even now exist  
in this state in the degree that it should.

### LUDENDORFF ON THE STAND

The testimony which Gen. von Luden-  
dorff gave in his own defense in connec-  
tion with the Bavarian ratheskeller rev-  
olution leaves the impression that he hates  
all persons except royalists, militarists  
and royal-militarist capitalists. It showed  
him to be well pleased with himself and  
to regard himself as one of the great hero  
loyalists of the empire. He took part in  
the Bavarian outbreak, he explained,  
when he believed that Bavaria contem-  
plated separating from the other states  
forming the new German republic—the  
new vaterland. Ludendorff frankly de-  
clared his preference for monarchy.

Monarchy was not the worst defect of  
the German empire. Militarism was the  
besetting sin. Ludendorff will find that  
the people will not want militarism after  
they realize their power and freedom. He  
will probably find out, too, that business  
will not want monarchism again. Busi-  
ness has flourished under even incom-  
petent republicanism.

Ludendorff doubtless knows more  
about the German point of view and the  
psychology of the German himself than  
does the average American, but in gov-  
ernment his practical knowledge is con-  
fined to a militaristic monarchy. He  
knows far less about democratic forms of  
government than does the average Amer-  
ican. There are persons in all countries  
who believe in reactionary government  
and in an exaggerated power of the state.  
These persons have consistently and his-  
torically opposed reforms of every kind.  
They are the die-hard. They have them  
in England and we have them in the  
United States. They have no faith, or  
little faith, in the capacity of people for  
self-government. They do not believe in  
free institutions in the wide sense of the  
term.

Ludendorff belongs to this class. It

may be that a majority of the German  
people would in an unhampered test be  
inclined to his opinions. It is claimed  
that they would, and it is quite possible in  
view of the distress through which Ger-  
many has passed since the war in its in-  
itial experiment with a republic. How-  
ever, time and observation are great edu-  
cational factors and once Germany is put  
upon the road to economic recovery, her  
political institutions will take on a better  
appearance. Ludendorff is as much an  
enemy of German progress and German  
freedom as he was in the days of the  
kaiser. It is probable that Germany is  
through with Prussianism. The forces  
of reconstruction throughout Europe, and  
in the United States as well, are of such  
a nature as to tend to hold Germany to  
her experiment in free government until  
such time as its real value can be demon-  
strated.

## Health Talks

BY WILLIAM BRADY, M. D.  
Noted Physician and Author

Dr. Brady will answer all signed letters per-  
taining to health. Writer's names are not  
printed. Only inquirers of general interest are  
answered by mail if written in ink and a stamped,  
self-addressed envelope is enclosed. Requests for  
diagnosis or treatment of individual cases cannot  
be considered. Address Dr. William Brady, in  
care of this paper.

### THE HAIR ON A WOMAN'S FACE

Every woman has hair on her face. She will  
discover this hair, decide that it is superfluous and  
launch upon a fruitless and deplorable course of  
experimentation.

The hair on every woman's face is down, prac-  
tically invisible, but like the spots before one's eyes  
readily apparent to you make a business of looking  
for them. As a general rule this down, at least in  
the case of a girl or young woman, remains for-  
ever unnoticeable provided it is not stimulated to  
excessive growth.

There are several chemicals which will give a  
fairly clean shave without dangerous irritation of  
the skin.  
It is a common notion that the use of creams,  
oils or grease upon the face "grows hairs" or stimu-  
lates the natural down. There is no ground for  
such a belief, though the application of irritants of  
any kind does tend to stimulate heavier growth of  
down. Perhaps excessive friction, rubbing or mas-  
sage of the face does, too. But the proper use of  
such cosmetics as a woman legitimately needs to  
make herself attractive will never cause a growth of  
hair.

Certain disturbances of ductless gland function  
may be characterized by the growth of heavy  
or coarse hairs about the face, but this is only  
one feature of such disturbances.

Single hairs may be destroyed by the electric  
needle, or a group of hairs at a sitting. This mode  
of treatment is especially desirable when a tuft of  
hairs or a number of hairs in a limited area of skin  
are to be removed. Electrolysis destroys the hair  
follicle or root so that the hair never grows again.  
X-ray treatment is employed with considerable  
success nowadays for the permanent removal of  
superfluous hair. Many of the most skillful opera-  
tors are reluctant to use X-ray for the treatment  
of superfluous hair about the face because of the  
risk of possible X-ray burn, but in other situations  
the X-ray treatment is most serviceable.

### QUESTIONS AND ANSWERS

From Soap to Oil

I find that soap irritates my skin, and so I have  
been using olive oil to clean my face. Will this  
cause hair to grow on my face? (Mrs. W. S.)  
Answer.—No. There is no cosmetic which will  
cause hair to grow, though probably anything which  
irritates the skin tends to make the fine down,  
which is ordinarily not noticeable, become heavier  
and noticeable.

### Tuberculosis of the Bone

Can tuberculosis of the bone be contracted by kiss-  
ing a person who has it? Is there such danger  
after the infected part has been removed by opera-  
tions? (Miss S. E. D.)

Answer.—No tuberculosis of bone or joint is  
scarcely communicable. If the patient has tuber-  
culosis of lung or throat, kissing would be a  
pretty certain mode of infection.  
(Copyright, National Newspaper Service.)

### LOOKING BACKWARD

TWENTY-FIVE YEARS AGO

Thursday, March 9, 1899.

A son was born to Mr. and Mrs. R. Winter, State-  
st, the day previous.

A schachkopf tournament was to be given the fol-  
lowing evening at Odd Fellows hall.

Mrs. Lucy Smith returned from a week's visit  
with her daughter, Mrs. William Chase at New  
London.

Announcement was made at Neenah of the en-  
gagement of Miss Mabel Aylward of Neenah to  
John Schaefer of Centralia.

T. W. Orbelson, Edward O'Keefe and W. K. Cook  
left for White Rapids, where they were to make  
surveys for the plans of a proposed new papermill.

A group of friends surprised John Neller, Jr., at  
his home on Eldorado-st.

The body of Mrs. Lovison, who died at her home  
at Ashland, was brought to Appleton for burial.

Jack Hammel, an employee of Kimberly mill, frac-  
tured his arm in two places by getting it caught in  
a window shaft.

Mrs. William Krueger entertained a group of  
friends at whist Wednesday evening.

Improvements to be made to the Shattuck and  
Babcock company mill at DePere included the in-  
stallation of a 116 inch paper machine.

The winter of 1899 was the first in many years  
that the fire department did not change from  
wheels to runners.

TEN YEARS AGO

Thursday, March 5, 1914.

F. M. Wilcox of Madison, a member of Wisconsin  
Industrial commission, was in Appleton on business.  
Waldo Rosbach returned from a two week's visit  
through Texas and other southwestern states.

Mrs. J. E. Woelher left for Racine, where she  
was called by the illness of her son-in-law, Herman  
Selk.

Mr. and Mrs. John Goodland left for South Bend,  
Ind., where the former was to inspect several street  
flushing machines, one of which was to be pur-  
chased for use by the city.

Miss Gladys E. Miller, 18, daughter of Mr. and  
Mrs. Albert E. Miller, died Wednesday at her home,  
706 State-st.

Lawrence college won the debate with Albion col-  
lege at Albion, Mich., Wednesday evening. Its team  
was composed of Paul Amundson, Robert Wilson  
and Ernest Tieg.

Raymond D. Bertsch of New York, formerly of  
Appleton, accepted a new position with Hammer-  
mill Paper company and was to be located at Erie,

## SEEN, HEARD and IMAGINED ---that's all there is to life

### THE THREE DEGREES OF POLITICS

1. Shaking the plum tree.
2. Running for office.
3. Merely getting one's name in the papers.

P. S. Perhaps we should reverse the order, starting from the "also rans" and winding up with "soft berth holders." But it's the man in the second degree who makes the most use of the lodge grip—the glad hand.

—YET.

### DIGGING IN

They say that the devil has been  
digging up for another Lenten season,  
but the difference between the com-  
mon devilry and release of surplus  
energy is a matter on which opinions  
differ. A man may be considered as  
fast as Dan Patch—no he's a dead  
one—but as fast as Zev. Others may  
put him in the class of torpedoes, mo-  
lasses and legislative bodies. It is  
a lucky thing for a lot of persons  
that there are no universal standards.

—

A Chinaman advises that Ameri-  
cans abandon the hope of learning  
how to play Mah Jongg as the game  
is too intricate for the occidental  
mind. Still there are not a few  
Westerners who may advise the Chi-  
nese to keep away from the National  
Game of Poker lest it be too intri-  
cate for the oriental mind.

—A. M.

### LENTEN HINTS

This is the way the flapper makes  
Lenten sacrifices to emulate the fast-  
ing days of old:

She gives up candy and ice cream  
because it makes her fat.

She gives up sorrow because her  
companions did likewise and she  
doesn't want to go alone.

She gives up chewing gum because  
it makes fillings loosen from the  
teeth.

She gives up dates with her var-  
ious beaux because there's nothing  
to go to and she won't sit in the par-  
lor all evening.

And if she can find anything else  
that is causing her inconvenience,  
discomfort or monotony, she'll add  
that to the list of sacrifices.

And we wonder what St. Peter  
will say when she is called on the  
golden carpet.

Mike the A. P. man is not kidding  
much about the income tax, but he  
does wish he could deduct sums spent  
annually for matches.

ROLLO.

## Paint Pearls In U.S. Rivers

(United States Bureau, in Popular  
Science Monthly.)

Science will soon place millions of  
dollars in the inland streams of the  
United States. There to be gathered  
by anyone who desires.

Through scientific propagation of  
fresh water mussels, the government  
experts plan to make dozens of rivers  
throughout the land yield rich har-  
vests in pearls.

Few people probably know that  
pearl fishing is conducted regularly  
in the rivers of the United States,  
yet during the last year more than  
\$15,000,000 worth of pearls were  
found in mussel shells on the bottom  
of such rivers as the Mississippi and  
the Black river, and the White river  
in Arkansas. These pearls were  
produced by natural means.

The spawn of the mussel is a para-  
site. It attaches itself to the gills and  
fins of certain fish, particularly cat-  
fish and bass. Unless it can find this  
lodgment and feed upon the tissues  
of the fish, it will die. The plan of  
the bureau of fisheries is to inoculate  
fishes with mussel spawn, then to  
place the fish back in the water so  
that the mussels may mature. This  
already has been done with the  
spawn of 40 varieties of mussels  
through 350 miles of the Mississippi  
between Iowa and Mississippi.

The largest pearls found in the  
United States include one weighing  
103 grains, taken from the Black  
river, Arkansas, in 1904, and one  
weighing 68 grains from the Wiscon-  
sin shore of the Mississippi in 1907.  
These sold respectively for \$25,000  
and \$15,000. The record catch for a  
month containing pearls \$300,000,  
taken by Wisconsin fishermen.

## Antique Buyer Never Will Pay Article's Worth

(M. S. Blumenthal in The Saturday  
Evening Post.)

The bright celestial moment for the  
collector of antiques is the one in  
which he lands a piece at several  
hundred times less than it is worth in  
the market. This kind of piece is  
what is technically known as a "find."  
It compares to the golf hole-in-one,  
the hopeless but successful appen-  
dicitis operation, the 10 round main-  
tenance or the ruining of the stock mar-  
ket. Thereafter the finder is the  
world's supreme bore.

A certain man whose philosophy I  
very greatly respect said to me once  
that in order to be a successful an-  
tique collector one must discard en-  
tirely all ideas of conscience, decen-  
cy, civility; one must come or nurse him-  
self to the frame of mind in which he  
can sneak up behind a helpless old  
lady, pull a Queen Anne chair from  
under her and run like the dickens.  
One must be sufficiently hard to drag  
an old gentleman off a tester bed,  
gather the bed together and stomp it  
for the freight station and one must  
be able to laugh in high glee as he  
snatches a Siegel nursing bottle from  
the pale lips of a puny infant.

You may have all the money in the

## "But who wants to be a camel?"

Schmidt's Top Coats----  
\$25 to \$52.50

If the last straw will break a camel's back—  
think of what your last Winter's O'coat may be  
doing to yours!

This is Top-Coat weather! April will be the same  
—May may be cold—and the June and July  
twins always have teeth to cut after 9 P. M.—  
especially if you drive.

You really need a Top Coat—one that's shower-  
proof—sneeze-proof and bundle-proof.

See these—note the carefree English lines that  
fall as easy as ashes.

## The Question Box

(Any reader can get the answer to  
any question by writing The Apple-  
ton Post-Crescent Information Bu-  
reau, Frederick J. Haskin, Director,  
Washington, D. C. This offer applies  
strictly to information. The Bureau  
cannot give advice on legal, medical  
and financial matters. It does not at-  
tempt to settle domestic troubles, nor  
to undertake exhaustive research on  
any subject. Write your question  
plainly and briefly. Give full name  
and address and enclose two cents in  
stamp for return postage. All replies  
are sent direct to the inquirer.)

Q. Give some information regard-  
ing the Ferris Wheel. W. A. C.

A. The Ferris Wheel which oper-  
ated at the World's Fair in Chicago was  
designed and built by George W. Fer-  
ris of Pittsburgh Pennsylvania. It had  
a diameter of 250 feet. The ends

rested upon two skeleton iron towers  
supported upon concrete foundations.  
Two wheels in combination formed the  
revolving structure which depended  
for strength upon the bicycle wheel  
principle. Iron rods two and one-half  
inches in diameter were substituted for  
wires. It had 36 carriages with a  
seating capacity of 40 each. The to-  
tal weight with passengers was esti-  
mated at 1,200 tons.

Q. What is the richest college in  
the country? G. Y. L.

A. Harvard University has the  
largest endowment of any college or  
university, its fund totaling \$5,958,  
336.

## Amber Is Resin Hardened After Many Centuries

How can the purchaser of a string of  
amber beads tell whether she is  
getting the genuine article or an imi-  
tation? Easy, if she knows the par-  
ticular characteristics of amber, for  
no gem is so impossible of perfect imi-  
tation as this particular stone.

But the fact is, amber is not a stone  
at all. It is a fossil resin, drawn ages  
ago from trees of the evergreen fam-  
ily, which grew near the shores of an-  
cient lakes or on grounds that have  
since been discovered by the sea. Its  
distinguishing marks are lightness of  
weight; it is very soft and crumbles  
easily; it has certain gradations of  
shade and surface impossible of imi-  
tation; it is charged with electricity,  
and if first rubbed against a smooth  
surface will pick up a piece of paper  
its color lights are distinctive. These  
particular distinguishing marks are  
observed without difficulty. The im-  
itator may achieve perfection; but he  
can not reproduce the qualities that  
mark the real gem.

Prussia Source of Supply  
Along the steep range of hills and  
the shore lines of Northern Prussia  
is found the greatest supply of amber.  
The hills are mined and yield enor-  
mous quantities of it. The sea washes  
up deposits in clay and sand, and di-  
vers drag for it with nets. China at  
Sichly also are rich fields for the seek-  
er after this gem.

Much amber comes from the Baltic  
sea. Women in towns along the coast  
carve exquisite jewelry from the  
stones. Brooches, hair ornaments fa-  
vored by ancient and modern vogues  
are wrought by these skillful hands  
and in its own country can be bought  
for a mere pittance compared with  
the price it brings in America.

Amber of this locality runs from  
pale yellow to rust red; the diversity  
of coloring due, it is said, to atmos-  
pheric changes. A light yellow will of-  
ten, in less than a century of expo-  
sure, turn from a very light to a very  
dark shade. Some of the gems are  
clear and very transparent, others are  
opaque, the amount of air and mois-  
ture allowed to get in during the hard-  
ening process being responsible for  
the difference. "Cloudiness" in a  
stone is part of its composition, and  
can not be removed. In Sicily, the  
amber is found near the surface of  
the ground and ranges in colors to  
green, gray, black and red. So it  
jeweler offers you a gem that has no  
the regulations yellow, but it is not  
him of fraud, for there are stones of  
other shades which are perfectly  
genuine.

### Women Like It

Women cannot resist the lure of  
amber. There may be more than one  
reason for its strong appeal, for it is  
not only a beautiful stone, full of it  
and delicate colorings, but it is also  
surrounded with a wealth of legen-  
ary lore. The ancients wore it as  
talisman or amulet against the influ-  
ences of evil and all the machination  
of witches and fairies. Perhaps the  
modern girl, with all her sophis-  
tication, harbors still a bit of supersti-  
tion which accentuates her desire to  
possess the stone. Scotch peasants  
wore amber beads strung on a  
tape of thread to break the magic  
spell of witchcraft, and a necklace of  
this kind was usually given by the  
mother to her daughter on the eve of  
her marriage in the belief that it car-  
ried a spell which the husband could  
not resist.

At the present time amber is only  
a semi-precious stone, too much of  
being accessible to make it a rare gem.  
Its appeal for the modern woman is  
doubtless lies in its beauty, its ven-  
ditary associations, and its lightness.  
It has a tendency to wear away an  
crumble, and this characteristic will  
in time decrease the world's supply  
for the tree which gave the resin,  
its making is now extinct.

## SOMEBODY'S GOING TO CATCH IT SOONER OR LATER

# Pelkey Is Reelected Elk Ruler

## Initiation of Class Precedes Annual Election of Elk Lodge

Heber H. Pelkey was reelected exalted ruler of the Elks at the annual meeting Wednesday evening. Other officers are James H. Balliet, leading knight; W. J. Roemer, loyal knight; H. L. Dawson, lecturing knight; C. F. Tennie, secretary; C. A. Green, treasurer; L. Hugo Keller, esquire; George Hogreiver, tiler; A. C. Besser, chaplain; E. K. Nielson, inner guard; Fred Peterson, trustee; Heber H. Pelkey, delegate to national convention at Boston in July; D. P. Steinberg, alternate.

The election of officers was preceded by the initiation of several candidates. It was decided to install a radio set and preliminary arrangements were made for a banquet to be tendered those taking part in the bowling tournament. Music was furnished by the Elk orchestra and lunch was served.

# Select Dates In April For Play By Club

"The Upper Room," the play which Columbian club will give at Columbia hall, will take place on April 2 and 3, according to plans made at a special meeting on Wednesday evening. It was found that the weekend dates, April 6 and 7 conflicted with the dates which had been chosen for the passion play at St. Joseph hall.

Committees for the play have been appointed. Miss Cecil Hall will head the publicity committee and be assisted by the Misses Regina King and Eleanor Hall. Raymond Fink has been appointed chairman of the advertising committee with Miss Gertrude Hammill as assistant chairman. Others on the committee are Harry Hoefel, Robert Joyce, Lester Balliet and Henry DeDecker.

Lester Balliet is chairman of the ticket selling with Rose Ryan and Kathleen McCabo assisting. Miss Naomi Peerenboom has charge of the ushers who will include the Misses Marguerite Hobbs, Myrtle Farrell, Vivian Monow, Louise Ryan, Beatrice Farrell, Dorothy Staben, Mildred DeDecker, Marion Peerenboom and Ruth Gillman.

## CLUB MEETINGS

Dr. H. E. Peabody will talk on the winning peace plan in the Bok competition at the meeting of the American Association of University Women at the home of Mrs. Charles Marston, 650 Park-ave at 3 o'clock Saturday afternoon. Miss Blanche McCarthy will preside at the meeting in the absence of the president, Miss Myrtle Hart who is spending two months in California.

Miss Rose Doherty of Chicago, who was a guest at the meeting of the Wednesday musicale when it met on Wednesday afternoon with Mrs. Eric Lindberg, 1016 Franklin st. sang a selection from the opera, "Carmen" as a part of the program. Other soloists on the program were Mrs. E. A. Morse, Mrs. Mary Doherty, Miss Margaret Engler and Miss Ann Thomas. Mrs. George Fannon had charge of the program.

Six comrades of the George D. Eggleston post of the Grand Army of the Republic went to Neenah on Thursday afternoon to attend the meeting of the H. J. Lewis post and the Neenah relief corps. The regular meeting of the Eggleston post will take place at Odd Fellow hall at 1:30 Friday afternoon. It will be followed by the meeting of the Women's Relief Corps at 3:30.

"To Tell the Truth" by Leonard Merrick was the book reviewed by the Town and Gown club at the home of Mrs. Olin Mead, 638 Pacific st. on Wednesday afternoon. Mrs. H. C. Tunnison assisted Mrs. Mead as hostess. The next meeting will take place at the home of Mrs. Arthur Weston, 520 John st.

Over the Tea Caps club will meet at the home of Mrs. C. L. Marston, 650 Park-ave, at 2:45 Friday afternoon. The regular program will be followed.

The P. E. O. sisterhood will meet at 2 o'clock Friday afternoon at the home of Mrs. F. J. Edmonds, 694 Durkee st. There will be no program but election of officers will take place. Installation of officers will follow the election.

The Nameless club met Tuesday afternoon at the home of Mrs. A. N. Trossen, 839 Spring-st. Prizes went to Mrs. George Ewen and Mrs. A. G. Schuelke. Mrs. W. S. Taylor will be hostess at the next meeting of the club.

Junior Mollon, son of Mr. and Mrs. W. M. Mollon, 633 Mason-st., who submitted to an operation for appendicitis at St. Elizabeth's hospital several days ago, returned home Thursday. Miss Bertha Osinga of Appleton, Wis. is a guest in the family of Henry Osinga, 733 Seymour-st.

# Social Calendar For Friday

2:30, Circle No. 10, Methodist social union, Miss Ida Hopkins, 483 North-st.

2:30, Circle No. 7, Methodist social union, Mrs. George C. Nixon, 874 Superior-st.

2:45, Over the Tea Caps Club, Mrs. O. L. Marston, 650 Park-ave.

3:00, P. E. O. Sisterhood, Mrs. F. J. Edmonds, 694 Durkee-st.

8:00, Modern Woodmen of America, Rheln Lodge rooms.

8:20, Thurlow and Edna Woolley Llewellyn concert, Lawrence Memorial chapel.

**BRINGING UP FATHER**

Of all the family, father is apt to be the most careless of a cough or cold, and it is the duty of mother to get the girls to see that he takes FOLEY'S HONEY AND TAR COMPOUND at the first sign of a cough, cold or hoarseness. After he once tries it, finds out how effective and pleasant it is to take, he will not hesitate to use it always. Contains no opiates. Safe and sure. Has served three generations.

SEE GREENE'S WINDOW DISPLAY OF LINGETTE BLOOMERS FRIDAY AND SATURDAY SALE SALE AT ONLY \$1.15

Made of strong lingette in plain and striped, colors, white, flesh, orchid and peach, regular sizes and outsize, in 27 and 29 inch lengths. Friday and Saturday Sale at only \$1.15.

GREENE'S adv.

# TO HOLY LAND

Mrs. Philip Snowden, wife of the chancellor of the exchequer in the new British cabinet, is going to Palestine soon to study the effects of the British mandate upon the people of the Holy Land.

## LODGE NEWS

The regular meeting of the Modern Woodmen of America will take place at Rhine lodge hall at 8 o'clock Friday evening. All members are expected to be present to receive a new M. W. A. button. A large class of candidates will be initiated.

Drill for the annual inspection will be continued at the meeting of Appleton commandery, Knights Templar, at 7:30 Friday evening in Masonic hall. The review will take place April 2.

## GIRL SCOUTS WILL LEARN HOW FIRE ALARMS WORK

Chief George P. McGilgan of the fire department will demonstrate the fire apparatus to 30 girl scouts at the engine house at 4 o'clock Thursday afternoon. The girls will learn how to send in an alarm and how an alarm is received at the station. A knowledge of the alarm systems is necessary for scouts who pass their second class tests. Other groups of scouts will be shown the apparatus later.

# 2 Appleton Girls Appear In Recital

Miss Miriam Peabody, daughter of the Rev. and Mrs. H. E. Peabody, 706 Lawrence-st. and Miss Katherine Russell, daughter of Mr. and Mrs. H. W. Russell, 488 Alton-st. will appear in a two-piano recital at Peabody hall at 8:20 Thursday evening. They are pupils of Ludolph Arens.

Both young women are accomplished musicians and their recital will be one of the most interesting to Appleton people of the entire student recital season. Several numbers on the program are those which were played by the world famous two-piano artists, Maier and Pattison. Prof. Arens has done a great deal to interest his students in two piano work.

Friends of the young pianists and of Lawrence Conservatory of Music are urged to be present at the recital.

## CHURCH SOCIETIES

The Women's union of the First Congregational church will meet at 2 o'clock Friday afternoon in the church parlors to sew for the Easter bazaar.

Circle No. 7 of the social union of the Methodist church will meet at 2:30 Friday afternoon. The meeting will take place at the home of Mrs. George C. Nixon, 874 Superior st.

Circle No. 10 of the social union of the Methodist church will meet at 2:30 Friday afternoon at the home of Miss Ida Hopkins, 483 North-st. This is the regular meeting.

Mrs. Victor F. Marshall has returned from a two weeks visit in Chicago.

E. P. O'Brien of Kenosha was in Appleton on business Thursday. Attorney Homer Benton of Green Bay spent Thursday in Appleton on business.

O. B. McGregor has gone to El Monte, Calif., for a three months visit with relatives.

## MOTHER GRAY'S POWDERS BENEFIT MANY CHILDREN

Thousands of mothers have found Mother Gray's Sweet Powders an excellent remedy for children complaining of Headaches, Colds, Feverishness, Worms, Stomach, Troubles and other irregularities from which children suffer these days and excellent results are accomplished by its use. They break up colds and regulate the bowels. Used and recommended by Mothers for over 30 years. Sold by Druggists everywhere. Trial package FREE. Address Mother Gray Co., LeRoy, N. Y. adv.

A. Ahrens of Two Rivers, was a caller here Wednesday.

WOOD COUNTY TO VOTE ON HIGHWAY HOLIDAY

Wisconsin Rapids—The question of declaring a two year holiday in concrete paving will be submitted to the voters of Wood county in an unofficial referendum. The legal requirements for an official vote were not complied with but A. P. Dean of Vesper and Charles Kieffer of Auburndale, advocates of the referendum, have offered to assume the expense of printing the ballots. These men and others desire to learn the country's sentiment on the question and find out this spring whether a majority of voters favor total abandonment of a paving program.

## NEW LONDON CAGE QUINTET INVADES KAUKAUNA HALL

Kaukauna Hopes to Square Up Defeat Suffered Early in Season

Kaukauna—Kaukauna high basketball team meets New London high school Friday evening in the high school gymnasium in the last home game of the season. The local team was defeated at New London earlier this season and is eager to even up matters in the coming tilt. Coaches McGrath and Wierkoop are drilling their charges not only for Friday's fracas but for the tournament in Appleton into which the Orange and Black fought its way by defeating Clintonville Tuesday evening.

Although New London was eliminated from a chance to play in the tournament by losing Tuesday evening to Menasha, the invading quint will play hard to repeat the drubbing it gave Kaukauna before.

A special effort is being made to spur up great interest in the battle, especially among the citizens. Little effort will be required to arouse the interest of the students who have been backing their team to the limit this season. Pep meetings are being held regularly.

A preliminary game will be played between the freshmen quint and Stanley Beguhn's junior five, champions of the high school interclass tournament. The first battle will begin at 7:15 and the main exhibition is scheduled for 8:15.

A complete staff has been appointed. It is expected the paper will consist of 20 pages and will be full of special articles written especially for that edition by prominent men of this city.

Editors will be Lyle E. Webster, William F. Waterpool, Olin G. Dryer, Alphonse Berens, Edward Rennieke has been made advertising manager while Harry Oim will be cashier.

At the regular meeting of Kaukauna Rotary club Wednesday noon Archie Creveier gave a talk in which he told of the plans of the local post of the legion. John McCoy, editor of the Times, gave a short talk regarding a community newspaper.

Liquor is main cause of Eau Claire arrests

Eau Claire—Drunk and offenses due to drunkenness again led by a big margin the number of arrests made by police in Eau Claire during February, according to the report of Chief Chris Laursen. Twenty-eight arrests were made; of these ten were for drunkenness and seven for disorderly conduct in which liquor was a contributing cause. A return to conditions of ten years ago was indicated in the number of tramps given lodging during the month. Fifty were booked.

PARK FALLS TRAPPER CAPTURES MINK ALIVE

Park Falls—Robert Klein, a trapper operating on the Flambeau river, recently captured a female black mink alive. The black mink is rare in this part of the country and Mr. Klein plans to keep the animal for breeding purposes.

Plays In Recital

Kaukauna—Above is a picture of Prof. Joseph Kaiser, present teacher of music in Manitowish, who will appear in the music recital by the pupils of St. Mary music class in the high school auditorium Sunday evening, March 16. The program will begin at 7:30. Prof. Kaiser was a student on the violin in Germany and appeared in public recitals, at an early age. He also was a teacher in the conservatory of Mainz, Germany. Mary Church

MANIAC ESCAPES GUARDS BY TRAIN WINDOW EXIT

Chippewa Falls—Thomas Holl, a maniac, was being taken to large in Chippewa Falls following his sensational escape from officers of the Oakkosh hospital for the criminal insane at Glenwood City when he leaped through the window of a Soo line passenger train.

Holly arrived in Irvine, a railroad station one mile from here, early Wednesday morning on a freight train, according to railroad men. He disappeared before word of his escape from the officers was received by local police. The man is said to have clung to the edge of the train window unobserved for twenty minutes until the train slowed down for the Glenwood City station.

Holly was being brought back to Oakkosh from Minnesota, where he was captured following his escape from the hospital a month ago.

FIVE CANDIDATES SEEK MAYORSHIP OF MENASHA

Manasha—Former Mayor N. G. Remmel, who has served the city six years as alderman and nine years as city executive, has announced his candidacy in the coming mayoralty election. He is the fifth candidate in the race. M. M. Schetz, present mayor is a candidate for re-election.

## SANCTION BOXING MATCH FOR APPLETON ON MAR. 11

Milwaukee—The state athletic commission at its meeting held on Tuesday suspended M. E. Engle of Milwaukee and Frank A. Bush of Rockford, Ill., for thirty days for fouling their opponents at the boxing show held by the Southern Wisconsin Boxing club of Janesville, last Feb. 21. The commission also granted a permit to Charles Fichtner of Milwaukee to act as official announcer for boxing shows. The following sanctions to hold boxing shows were issued: Midwest Athletic club, Appleton, March 11; Metropolitan Athletic club, Milwaukee, March 14; Knights of Columbus Athletic association, Milwaukee, March 20; Chair City Athletic club, Sheboygan, March 25.

after spending several days with friends at Appleton.

We have exercised unusual care in selecting our lines for this new season. We are satisfied that they represent the best values and the most becoming styles

## SPEND \$40,000 TO ADVERTISE STATE TO OUTSIDE WORLD

Land o' Lakes Board Appropriates Money for Boosting Wisconsin

Milwaukee—Wisconsin as a sportsman's paradise will be advertised to the extent of \$40,000 during the balance of 1924, according to the budget plan adopted on Wednesday by the board of managers for the Wisconsin Land o' Lakes association. Inc. meeting at the Association of Commissioners.

More than half of this money, \$21,000, is to be spent for newspaper advertising, according to the budget. The sportsman plan to spend \$3,500 for the distribution of booklets telling of Wisconsin's wonders, fish, game and forests. Magazine advertising will claim \$2,000. Field men for the organization working in the state have an appropriation of \$6,000, office expenses \$2,500, membership signs will cost \$1,000, and the remaining \$2,000 will be used for general purposes. It was understood that these amounts are to cover maximum expenditures and can not be exceeded.

### HALL EXPLAINS WORK

Elmer S. Hall, state conservation commissioner, addressed the meeting and told of the work of the commission in restocking river and lakes with game fish. The restocking program this year is larger than before, Mr. Hall declared.

He urged that the sportsmen ask the state legislature next January to appropriate more funds for conservation work, more game and fire warden and better fire protection, also that the money expended on state parks be taken from the general fund instead of the conservation appropriation. He expressed the belief that half of the money expended for reforestation should come from the general fund instead of all from the conservation.

### MEET AT STEVENS POINT

The state sportsmen will meet on May 16 at Stevens Point to outline a definite conservation program for the state and to draw a bill for presentation at the next session of the state legislature.

## 10 YEARS IN PRISON FOR AUTO THIEVES

Automobile thieves who last fall stole a car from Carl J. Thomas here have been arrested in Sioux Falls, S. D. and sentenced to ten years imprisonment in the state penitentiary, according to word received by Chief George T. Prim of the Appleton police force.

The men are Stanley and Fred Rager, 29 and 21 respectively, and are said to have committed a series of thefts since they left their home in Saginaw, Mich. Last fall they stole a car in Manitowoc and came to Appleton. Running out of gasoline, they abandoned the Manitowoc car at the Northern Hotel on Washington street and then stole the Ford car of Mr. Thomas which had been parked on Washington at near the Wisconsin Telephone company office.

At Sioux Falls the brothers were arrested for stealing another automobile. When it was learned that the men had violated paroles for thefts committed at Saginaw, they were sentenced to ten years imprisonment.

### ISMET PASHA RESIGNS; ASKED TO FORM CABINET

London—Ismet Pasha has resigned as Turkish premier, according to the Constantinople correspondent of the Exchange Telegraph, but the president of the republic has asked him to form another cabinet.

## Fellowship of Prayer

Daily Lenten Bible reading and meditation prepared for Commission on Evangelism of Federal Council of the Churches of Christ in America.

THURSDAY  
Call of Men to Decision

Read Mt. 16:21-23; Text: 16:24-25. Then said Jesus unto his disciples, If any man would come after me, let him deny himself, and take up his cross, and follow me. For whosoever would save his life shall lose it and whosoever shall lose his life for my sake shall find it.

"A man must gird himself tightly and move out boldly after Christ. He must take up his life and his cross. But it is decisively into Christ's enterprise, to be and to do all that an unfolding sense of duty may reveal. Then all the mysterious facts with which he is linked contribute to the strengthening of his life."

MEDITATION: From his own experience during the period of his temptation, Jesus found that there is but one way to true living, and that is to put the insistent demands of self aside and live with firm determination for the welfare of others, not counting the cost whatever it may be.

PERSONAL QUESTION: What is the Cross I bear? Eternal Christ, we seek thy face, and in spirit and truth desire to follow thee. We come in penitence that in our contrite hearts thou mayest find thy dwelling place. Inspire us by thy holy presence, thou great Creator, Amen.

## SOLICITOR PASSES BAD CHECKS; NABBED

Writes Checks Without Having Money in Bank—Arrested at New London

Issuance of worthless checks by a magazine agent in Appleton this week, resulted in the man's detention in New London at the request of Chief George T. Prim, and Detective John Duval went to New London Thursday morning to bring him into court here.

The man is W. C. Johnson, 25, and is at the head of a group of canvassers working for the Periodical Sales company, 1104 South Wabash ave, Chicago. While in Appleton for five days he is alleged to have issued three checks on a Milwaukee bank without having an account in them.

The checks were issued to a local hotel manager, two of them being in amounts of \$10 each and one for \$9.65. When presented for payment, it was learned from the Milwaukee banks that no one of the man's name had an account there. Police learned that the canvassers left Tuesday for New London and Clintonville. Immediate communication with Chief Luck of New London resulted in the arrest of Johnson on the charge of securing money under false pretenses. He was to be arraigned on municipal court here Thursday afternoon.

## YOUTH BREAKS OUT OF GREEN BAY JAIL

G. Jostad, agent of the state board of control, led an elusive prisoner when he conducted one Clarence Hastings from Shawano to Green Bay Wednesday, for when the young man had been placed in the county jail at Green Bay, he broke out. Authorities are now searching the vicinity for trace of him. He is a man 22 years old tall and weighing about 120 pounds, is dark complexioned and has long dark hair. He wore a dark suit, dark mackinaw, brown shoes and dark cap.

Hastings has a record as a jail breaker. He escaped from jail at Manitowoc and is wanted in several places for stealing automobiles.

### COUNTY READY TO PAY SHARE OF STATE TAX

State taxes due from Outagamie co. has been paid into the county treasury by the various city, village and town treasurers, and Miss Marie Ziegenhagen will make the county remittance to the state treasurer before March 10. The total amount of state taxes collected from the county was \$103,612.29, of which sum Appleton paid \$24,394.82.

## STOMACH UPSET?

Get at the Real Cause—Take Dr. Edwards' Olive Tablets

That's what thousands of stomach sufferers are doing now. Instead of taking tonics, or trying to patch up a poor digestion, they are attacking the real cause of the ailment—clogged liver and disordered bowels.

Dr. Edwards' Olive Tablets arouse the liver in a soothing, healing way. When the liver and bowels are performing their natural functions, away goes indigestion and stomach troubles.

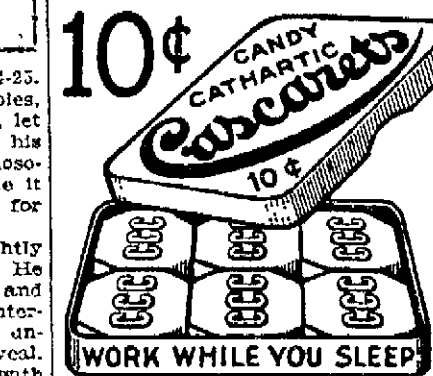

Have you a bad taste, coated tongue, poor appetite, a lazy, don't-care feeling, no ambition or energy, trouble with undigested foods? Take Olive Tablets the substitute for calomel.

Dr. Edwards' Olive Tablets are a purely vegetable compound mixed with olive oil. You will know them by their olive color. They do the work without griping, cramps or pain.

Take one or two at bedtime for quick relief. Eat what you like. 15c and 50c.

## IF CONSTIPATED, SICK, BILIOUS

Harmless Laxative for the Liver and Bowels

Feel fine! No griping or discomfort—once follows a gentle liver and bowel cleansing with "Candy Cathartic." Stomach, Headache, Biliousness, Gases, Indigestion, and all such distress gone by morning. For Men, Women and Children—10c boxes, also 25c and 50c sizes, any drug store.

Traveling in Europe  
Frank Simonds, expert writer, European affairs, is always fortunate enough to locate in advantageous spots in Europe to follow current events and developments. Read what he sees and hears! Every Sunday in The Sunday Milwaukee Journal.

# SUPREME COURT OF STATE SAVES FISH BREEDING GROUNDS

Winnesheik Bottoms Cannot Be Drained, High Court Rules

The strenuous battle which sportsmen of the middlewest have waged to preserve the Winnesheik bottoms along the Mississippi river as a breeding place for bass and other game fish, is ended with a victory for the sportsmen. The Wisconsin Supreme court, in a decision handed down on Jan. 15, 1924, in a case in which a Crawford drainage district was the defendant, ruled that drainage of the bottoms is in violation of the constitution of the United States and in violation of the charter of 1878. The decision was generally overlooked, especially its reference to the sportsmen's battle, but it was discovered by Attorney Mark Catlin, former president of the Wisconsin Game Protective association, one of the most ardent sportsmen and conservationists in the state.

## APPEAL TO CONGRESS

A concerted effort had been made for many months to induce congress to prevent the war department from issuing an order which would permit drainage of the bottoms on the ground that the Winnesheik bottoms are a natural breeding place for game fish and game birds. It was argued that millions upon millions of small fish have been rescued from the sloughs and bays of the bottoms and transported to other fishing places, often in carload lots. More than a carload of fingerlings from the bottoms have been deposited in the Fox river and Lake Winnebago and many lakes are stocked very largely with rescued fish.

## SUIT IS STARTED

The war department, however, issued the order and preparations were made to drain the bottoms. Suit to restrain the Crawford drainage district No. 1 from proceeding with the works was started at LaCrosse and the case finally was carried to the Supreme court which ruled that the bottoms, which extend north from LaCrosse, had been granted for use to the people in the charter of 1878 and the war department has no authority to issue an order which is contrary to law or to a special charter. It is believed this decision will take away the principal "talking points" of a few "sportsmen's magazines" which have been waging a war against destruction of the bottoms for breeding purposes. The decision, it is said, that drainage of the bottoms is stopped and no further protests to the war department or to congress will be necessary.

# ON THE SCREEN

PANTO SCENES ARE ENACTED IN WEST

In a little village in the West a scene was enacted for a motion picture, which might have been real as far as the spectator was concerned. It is part of the big forest fire in the Vitaphone big special production, "The Ninety and Nine," a David Smith picture, which will be shown at the New Bijou Theater Friday and Saturday. The scenes show the people of the town panic stricken and afraid, fleeing from their homes and gathering at the railroad station to pray for aid. A huge forest fire had entirely enveloped the town and there was no hope for escape save from a train being driven through the fire, a veritable furnace, and by telegraph they had learned that no train was available. After the telegraph poles had burned and the wires were down so that the town was entirely cut off from communication, the hero secures an engine and drives a relief train through the forest aided by the heroines. The scenes in the village show the skillful direction of David Smith.

# Says His Prescription Has Powerful Influence Over Rheumatism

Dr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work. He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system. He freely gave his discovery, which he called Allen's, to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. He has therefore instructed Schilz Brothers Co., Voigt's Drug Store to dispense Allen's with the understanding that if the first pint bottle does not show the way to complete recovery he will gladly return your money without comment.

# Fire Protection And Good Water Is Assured By Little Chute Plant

By W. F. WINSEY

Little Chute's new water plant and system provides adequate fire protection and assures the village plentiful water for all purposes, officials tests have proved. The plant is said to be as efficient as any of its size in the state and the quality of water is the best in the Fox river valley. Expert advice was sought in preparing the plans and laying out the outside plant.

Before the water works system was installed the village depended upon private surface wells and a few cisterns for its fire protection, according to Anton Jansen, president of the village.

"Realizing the critical condition their home village was in on account of a lack of fire protection and lack of a wholesome water supply, a movement was started by a young element in the citizenship of Little Chute to obtain serviceable fire protection and a safe water supply," Mr. Jansen said.

"The movement started by these young people," continued Mr. Jansen, "culminated in March, 1923, in the adoption of the village board a resolution authorizing a vote on a bond issue of \$120,000 for building a modern water works system. The bond issue carried by a vote of 450 to 105."

"Because they were absolutely positive about the outcome of the vote, the promoters of the water works system had plans drawn before the election took place and submitted them to the state board of health and to the bureau of fire inspectors, Milwaukee. The fire bureau said that those plans were the most complete that the bureau had ever acted upon and the state board of health also commended the plans. The plant was designed to supply a population of 15,000."

"Immediately after the election the board advertised for bids on construction work and material. The bids were opened on June 18, and contract

LITTLE CHUTE WATER PLANT

for supply a steel tank was awarded to the Pittsburgh, Des Moines Steel Company on June 20, the contract for building a reservoir and pumping station was awarded on June 21, to the Appleton Construction Company, the contract for drilling the well went to J. J. Faust & Company, Kaukauna. Prof. R. M. Bass, Lawrence college was given charge of the location of the well and drilling operations.

"All the construction work has been completed by the contractors," says Mr. Jansen, "including the laying of two miles of mains, 35 private houses have already been connected up and 100 more houses are on the waiting list, the process having been interrupted by the weather, and water was turned into the mains on Jan. 27."

The only work not completed is the building of a man hole at the well through which the overflow from the well will be conducted into the reservoir at the rate of 100,000 gallons in twenty-four hours. The overflow from the reservoir is conducted into the canal. Two 40-horse power electric motors, automatically operated, furnish the power to two Roturba

centrifugal pumps that force the water from the reservoir at the level of the stand pipe, 295 feet above the well.

The capacity of the reservoir and stand pipe is 100,000 gallons each. The powerhouse is 26 feet by 40 feet, is faced with red, pressed brick and is tile-roofed. In the upper levels of the village the water pressure furnished by the standpipe is 65 pounds and it is 90 pounds at the pumping station. The fire hydrants have the same sized fittings that are in use in Appleton.

In the laying of water mains, Little Chute is operating under the state assessment plan which provides that abutting property must pay for six inch mains and the municipality pays for the excess over six inches. The men immediately connected with Mr. Jansen in the promotion and construction of the waterworks are N. L. Schommer, Peter Jernsen-Cornelius Wynboom, John Van Den Boora, Frank Maas and John E. Van Eyck, village trustees, Martin Van Hoot, village clerk, A. E. McElshon, engineer and Judge Thomas Ryan, Appleton, village attorney.

# JAPANESE BARON WILL REPLACE GREAT MUSEUM

Tokio—Baron Okura has announced that he intends to endeavor to replace the great museum which he presented to the nation some years ago, and which was destroyed in the fire following the earthquake.

The collection was one of the chief attractions to foreign visitors in Tokio and was of enormous value. Many of the relics cannot now be duplicated. A few were saved, having been removed to a fireproof warehouse as the fire approached. The collection cost Baron Okura about \$2,500,000.

# AGED MINER AND SON REAP FORTUNE IN GOLD

Anchorage, Alaska — Joe Wilson, 80 years old, and his son aged 50, showed up in Seward recently with 120 ounces of placer gold which they had taken out in 13 days at Moose-Pass, 29 miles from Seward on the Alaskan railroad.

The elder Wilson is one of the best known old-time placer prospectors in the north. He has been "in the money" several times.

# Don't Pay \$1,000 or More

for a car, without knowing what the leader offers in the fine-car field

WE made a canvass of many who bought rivals of Studebakers. We said, "Tell us why you liked your car the better." The majority said, "We did not even look at the Studebaker." Most of them bought new models of the car they owned before.

Yet Studebaker is a leader in the fine-car field today. Studebaker builds more quality cars than any other plant in the world.

Studebaker is the sensation of modern Motordom. Its amazing growth signifies a new situation in this field.

Last year, 145,167 fine-car buyers paid \$201,000,000 for Studebaker cars. Nearly three times as many as in 1920.

Is it fair to yourself—or fair to us—not to learn the reasons—for this trend?

## Facts to consider

Studebaker assets are \$90,000,000—all staked on satisfying, better than others, buyers of high-grade cars.

Over 23,000 men have their future at stake on giving you maximum values.

\$50,000,000 in modern plants and equipment, of which \$32,000,000 has been added during the past five years.

\$10,000,000 in body plants to give you superlative beauty. To give that final touch for which Studebakers have been famous for decades.

125 experts who devote their whole time to studying betterments. Who make 500,000 tests per year to maintain our supremacy.

Consider Studebaker history. For 72 years this concern has stood for high principles and policies.

For two generations, against all the world, it held first place in horse-drawn vehicles.

LIGHT-SIX

Coupe-Roadster (2-Pass.)	-	-	1195.00
Coupe (5-Pass.)	-	-	1395.00
Sedan	-	-	1485.00

Now for years its name and fame have been committed to like attainments in fine motor cars.

## If you only knew

There is no room here for details and comparisons. You will find them all in Studebaker showrooms. But let us cite some significant facts.

That lack of vibration, so conspicuous in Studebakers, costs us \$600,000 yearly in extra machining of crank shafts.

That matchless strength in vital

## See the Studebakers

Studebaker builds more fine cars than any other plant in the world.

Last year 145,167 wise motor car buyers paid \$201,000,000 for Studebakers.

The demand has almost trebled in the past three years. Studebaker now holds a leading place in the high-grade field.

Our modern plants and their equipment cost \$50,000,000. All to give you the maximum value at the minimum of cost.

It is folly to buy a car in this class without knowing what we give.

parts comes from the costliest steels. For some we add 15% to the quoted price to get exactness in them.

That Chase Mohair, used in our closed cars, is made from the soft fleece of Angora goats. Cotton or ordinary wool, or a combination of both, could reduce our price \$100 to \$150 per car, but it would sacrifice Studebaker quality.

Note the bumpers, the steel trunk, the extra cord tires, the motometer, the courtesy light on some models. Figure what they would cost as extras.

## The infinite care

We use 35 formulas for steel, each

(All prices f. o. b. factory. Terms to meet your convenience)

worked out to exactness for supreme service in its place.

We employ 1,200 inspectors to make 30,000 inspections of the material and workmanship in each Studebaker car—before it leaves the factory.

Consider how Studebaker has always led in the building of high-grade cars. We were first to use cord tires as standard equipment. We were the first quantity manufacturers to build bodies of the highest grade.

If you want beauty, fine upholstery, rich finish and equipment, consider that Studebaker has had more experience in fine coach building than any other motor car maker.

## Our place no accident

The pedestal place which Studebaker holds in the fine-car field is not the result of accident. It comes from principles as old as this business—the ceaseless and determined ambition to excel.

Learn the result of these efforts. Compare detail by detail, part by part, with any car you wish. When you foot the advantages, you will find that they number scores.

These are facts you should know. They are inducing 150,000 per

year to choose Studebaker cars. Some sell at \$1,045. Some meet with every requirement in size and power and luxury. But the chassis are all alike, save in size. The same steels, the same standards throughout. Every important Studebaker part represents the best we know.

People have learned these facts—hundreds of thousands of them. The demand for Studebakers has almost trebled in three years. It has become overwhelming, even for our facilities. Investigate the reasons. You will find them by the scores. Then, if you choose a rival car, we shall have nothing more to say.

# COUNCIL EMPLOYEES VISITING NURSE FOR CITY

## APPLETON GIRL GIVEN POSITION AT \$1,680 SALARY

City Will Purchase Right-of-way for Alley and for Cherry-st Road

Carrying out a resolution of several months ago for engaging a city health nurse for Appleton, the common council Wednesday evening voted to give the position to Miss Florence Whipple, a trained nurse of Appleton.

Miss Whipple is a daughter of Mr. and Mrs. C. O. Whipple and lives at 502 Pacific-st. She has been engaged in professional nursing in Appleton, although last year she was in the welfare department of the Kimberly-Clark company at Niagara, Wis.

Miss Whipple was one of four candidates for the position, two of which were from Appleton, one from New London, and one from Kenosha.

The salary of the visiting nurse was fixed by the council at \$140 a month with an allowance of \$10 a month additional for operation of an automobile. The resolution to engage Miss Whipple was introduced by Alderman John P. Lappen, chairman of the finance committee, but called for a salary of \$1,800 a year. Alderman L. O. Hansen then offered a motion to fix the salary as previously stated.

### SALARY TOO HIGH

Mayor Henry Reuter questioned the advisability of engaging the nurse at a higher salary than the city physician and deputy health commissioner are receiving. Alderman Lappen replied that the latter two were serving the city only on a part time basis, and declared that no physician would devote his full time to the city for a salary of even \$2,000 a year. Alderman C. D. Thompson, who is a member of the board of health, would have the appointment of a nurse deferred until after election for the reason that a new city physician might be engaged and that this official should be consulted in the choice of a nurse. He favored the suggestion of the present city physician for the employment of a practical nurse who would attend the sick in time of contagion.

The purpose of a city nurse is misunderstood, declared Alderman Lappen. He said that she was engaged for welfare work principally, rather than for bedside work.

"Which is another way of saying that you don't know what she is being engaged for," retorted Mr. Thompson.

Alderman J. A. Wood opposed deferring the appointment until after the new council takes control and said that the nurses had waited long enough for intelligence regarding a pending appointment and were entitled to know who was to be employed.

### ACCEPT LAKEVIEW BRIDGE

The Lakeview bridge completed in December by C. H. Meyer & Sons company of Oshkosh was accepted by the council Wednesday evening. The aldermen have inspected the structure a few months ago and found only a few minor defects which had to be repaired at an expense of \$371.

The council instructed the city attorney to acquire deeds for the opening up of an alley in block 28, second ward, which is at the rear of the Woolworth-bldg. It also voted to appropriate \$8,500 for purchase of the Lutz property on lot 5 of that block toward widening the alley. The alley will be about 15 feet wide according to the street committee's plans.

The mayor and city clerk also were instructed to exercise the city options on land on the south side of the Fox river over which he proposed Cherry-st road is to be extended. The options are on land that extends as far as the south city limits.

### Qualifies as Delegate

George H. Beckley will be one of the delegates from Wisconsin to the annual convention of agents of the Travelers Insurance company of Hartford, Conn., which will be held at Quebec, Canada Sept. 2, 3 and 4. Mr. Beckley qualified as a delegate by writing insurance with premiums totaling \$3,000 in a specified period.

## THREE WANT JOBS IN FIRE DEPARTMENT

Police and Fire Commission Gets Applications—14 Arrests in Month

Police vigilance in Appleton during the month of February resulted in the making of 14 arrests, according to the monthly report of Chief George T. Prim to the Appleton fire and police commission which held its regular meeting in the city hall Wednesday evening. Inasmuch as the commission was unable to finish its business and because of the absence of two members, the commission adjourned until March 13. Three applications for positions as firemen were received.

Classified according to the offenses committed the arrests were as follows: operating gambling devices 1, violation of state prohibition laws 2, drunkenness 2, violating arterial highway ordinance 3, carrying concealed weapons 1, malicious destruction of property 1, molesting a woman 1, disorderly conduct 1 and defrauding an innkeeper 1.

The report of the activities of Mrs. Mildred Gardner, policewoman, showed that she supervised three public dances, took two girls home from dances, interviewed parents in three cases, returned two girls to their parents living outside the city and secured employment for four girls besides performing general duties on streets and in theatres.

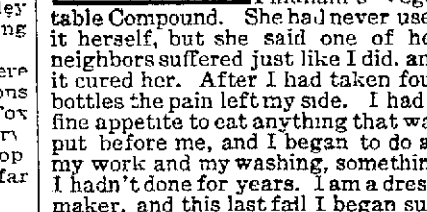

## RAILROAD MEN ATTEND MEETING IN FOND DU LAC

W. B. Basing, general agent of the Northwestern road and Joseph Wagner, warehouse foreman at Fond du Lac, Wednesday, were the guests of the Freight Claim Prevention association at the Palmer house. J. S. Rice of Fond du Lac, superintendent of the Northern Wisconsin division, presided at the business session that followed. Matters pertaining to claim prevention and train service were discussed by G. C. Larson of the claim department, Chicago. C. W. Krause, secretary of the association, Fond du Lac, and W. B. Basing, Appleton.

## AFRAID SHE COULD NOT LIVE

Operation Advised, but Lydia E. Pinkham's Vegetable Compound Made It Unnecessary

Glasgow, Kentucky.—"I was run-down, nervous, with no appetite. My side had given me trouble for five or six years. At times it was all I could do to live, and the doctor said I couldn't live but a short time longer without an operation. That was two years ago. My sister-in-law recommended Lydia E. Pinkham's Vegetable Compound. She had never used it herself, but she said one of her neighbors suffered just like I did, and it cured her. After I had taken four bottles the pain left my side. I had a fine appetite to eat anything that was put before me, and I began to do all my work and my washing, something I hadn't done for years. I am a dress-maker, and this last fall I began suffering with my side again, so I began taking the Vegetable Compound again. I am on my fourth bottle, which makes eight in all I have taken. I feel so much better when I take it and everybody tells me I look better. My appetite improves and I feel stronger in every way. I am a very nervous woman and it seems to help my nerves so much."—Mrs. MAGGIE WALLER, Glasgow, Kentucky.

## TO WED EGYPTIAN ROYALTY

Mrs. Jean Nash, daughter of an American millionaire, who eloped at the age of 17, now is engaged, it is reported to Prince Ahmed Sabih Bey (shown with her), nephew to King Faud of Egypt. One report is that Mrs. Nash will embrace the Mohammedan faith.

## TOKIO'S SKYSCRAPER WILL BE EARTHQUAKE PROOF

By Associated Press

Tokyo—Tokyo's greatest skyscraper, the Marunouchi building, is to be earthquake proof. The building was erected by a firm of American contractors by the Mitsubishi company. It was seriously shaken by the earthquake.

The structure which covers an entire city block is to be divided into thirteen sections thus localizing shocks as is the case with the Imperial hotel building which withstood the shock well.

Quakeproof walls will be built between each section and its neighbors, piercing the building from roof to foundation. The work will extend over two years.

## ORDER HEARING ON PROPOSAL TO ADOPT STREET NAME PLAN

Council Also Will Hold Hearing on Change of Zoning Ordinance

Two public hearings are to be conducted in the near future as the result of action taken by the council on pending legislation. One hearing, which will take place at 7:30 on the evening of March 17, will be for the purpose of listening to objections to a proposed amendment to the zoning ordinance. Another hearing will be called by Alderman C. D. Thompson, chairman of the ordinance committee, to ascertain public sentiment on a proposed ordinance for renaming certain streets and applying a street marking and house numbering system.

The amendment to the zoning ordinance proposes enlarging the local business district at the corner of Richmond and Packard sts. as well as creating a new local business district in the triangle at State and Eighth st.

## RICHARD PROTESTS

An ordinance for renaming a number of streets and adopting a new house numbering system was recommended for publication by the committee on ordinances. It was a committee drafted by the committee on streets and bridges.

The committee's report evoked the protest of Alderman George T. Richard who also had introduced an ordinance in the meeting previous. The ordinance had been referred to the ordinance committee, but the committee pocketed it without making any

recommendation therefor. Alderman Richard demanded that both proposed ordinances be published and that they both be considered at the public hearing. His motion was lost by a vote of 7 to 5, Alderman Richard, Hansen, Hagsmann, Schultz and Smith voting in the affirmative, and Alderman Wood, Thompson, Beske, Fose, Callahan, McGillen and Lappen voting in the negative.

Mr. and Mrs. Harry Bliss, 776 North st., have as their guest, Miss Rose Davis of Minneapolis who is on her way home after a visit of several weeks in Chicago and Milwaukee.

## REAL ESTATE TRANSFERS

Ellis H. Curtis to H. B. Palmer, part of lot in First ward, Appleton. August Stocker to Lenora M. Dauten, lot in Dale. William Stapel to Albert Stapel, part of two lots in Sixth ward, Appleton. Anton Reth to Victor Aertz, three lots in Grignon addition, Kaukauna.

## Quality Cars Now Easy to Own

It is no longer necessary to pay high prices for quality transportation. Through engineering and marketing efficiency, Chevrolet has achieved volume production of quality automobiles, thereby effecting such remarkable economies that it now leads all standard-built cars in volume of sales. Chevrolet possesses quality features usually found only in the higher priced automobiles.

Artistic appearance, fine finish, and riding comfort are characteristics of all Chevrolet models.

Ease, simplicity, and economy of operation are insured by a chassis famous for its engineering efficiency.

You have reason to be proud of your Chevrolet. It is an achievement.

## Foot Troubles Cause Shoe Troubles

Many people blame their shoes for wearing out sooner than they should. Their shoes will break down at the shank, the heels will run over, holes will wear through the soles and other apparent defects quickly appear.

In nine cases out of ten, weak or broken-down arches or flat foot is the cause of all such shoe complaints. The foot trouble must be overcome, then shoe trouble will disappear.

## A Podo-graph Print Tells Why

In a few seconds time, without the removing of the shoe we can make a photographic print on Dr. Scholl's Podo-graph of your foot that positively shows if you do have foot troubles and if these foot troubles are responsible for your shoes wearing out sooner than you think they should.

THIS SERVICE IS ABSOLUTELY FREE. Don't make any difference whether you buy footwear from us or not. Everybody is cordially invited to test out this wonderful machine. We are headquarters for good shoes and foot comfort. Our Foot Comfort Expert who can tell you why you have foot trouble and how to overcome it, is always at your service.

Come in and bring a friend if possible.

# CHILDREN AGES 5 TO 14 WORK IN OYSTER CANNERY

Mississippi Owners Glad Federal Child Labor Was Knocked Out

Biloxi, Miss.—Hush! It is the children's hour.

Between 3 and 4 each morning it comes ushered in here as regularly as clockwork to the accompanying tumult of a hundred factory sirens, which proclaim the event for Biloxi's tiny workers in the shrimp and oyster-canning factories.

Mingling their wail with the roar of the sea, these blaring sentinels call into the cold hours before dawn an army of boys, girls and women, bidding them haste to work lest daylight steal in and find them unoccupied.

Most children who work in the oyster canning factories are tiny tots. From 5 to 14 their ages run. Many of the smaller children work with their parents, contributing their efforts to the common family shucking.

All day long you can see them in moisture-laden rooms, bending over cars of steaming oysters, shucking away at the shells and filling little pails with the meat for 5 cents a pound.

Those who shuck oysters receive sharp cuts which often become infected from the oyster shells and from the knives employed in the process.

The shrimp picker is attacked by both acids in the shrimp head and a sharp thorn or prong which projects from the head.

Shrimp pickers say they cannot work more than a week at a time.

"You gotta give your fingers a chance to heal up," a little girl of 11 and the veteran of three factory seasons advised.

On the other hand, factory owners and employers of the child and women workers say they try to minimize the hazards attendant upon the picking and shucking. They report that only careless and inexperienced persons are injured.

In one factory to which the writer gained uninvited entrance despite the usual signs forbidding visitors, he was puzzled by the contrasting effect his presence had upon the workers.

Children fled from his sight in all directions. Some hid beneath shucking tables, and others, who were small enough to escape detection that way, scurried to retreat under the ample tent of their mother's dresses.

When he had been placated, the head "straw boss" of the factory explained the reason back of all this flurry.

"Them kids ain't old enough to work," he said. "And they think you're an inspector. I taught them to run away when anybody that was strange came into the factory."

"But we haven't got anything to be afraid of, though, because the government hasn't any more authority to make the kids stop working. I'm glad they knocked out those federal child labor laws. They sure caused us cannerymen a heap of bother while they were in force."

## CUT ACCIDENTS BY USE OF PSYCHOLOGY

Lawrence, Kans.—Reducing automobile accidents by means of applied psychology is the plan of Dr. William A. McKeever, editor of numerous juvenile and psychology publications and former University of Kansas professor in charge of child welfare and "better city" projects.

Dr. McKeever has prepared what he calls "A Universal Auto Creed," consisting of a pledge for the driver, the pedestrian and the motor guest, which he is to offer to automobile associations, schools, safety leagues and all others concerned in the problem of safe motor car driving.

"There are not more than ten critical points for the driver, for the pedestrian and for the passenger," said Dr. McKeever. "Cover these danger spots with an advance vision in the mind of the individual, showing him specifically how to act or what to do, and the safety will take care of itself."

The pledges for the driver are: I will think ahead; I will drive carefully; I will avoid speeding; I will observe signals; I will manage my auto; I will slacken speed; I will respect pedestrians; I will assist at accidents; I will encourage others; I will assume responsibility.

The pledges for the pedestrian consist of these:

I will be thoughtful; I will follow traffic; I will watch street cars; I will walk deliberately; I will cooperate with drivers; I will stand in safety zone; I will wait for car to stop; I will keep to the right; I will be responsible; I will avoid jay walking.

## RUSSIAN DANCER'S BEAU PROVES THIEF

Sonia Smilanskia In Tears When She Leaves Court After Implication

By Associated Press Berlin.—Sonia Smilanskia used to be a carefree Russian dancer in the cabarets of the central European capitals. It was a sad day for the beautiful artist when she came to Berlin to fill an engagement in one of the big variety theaters.

She made the acquaintance in Berlin of a Khirghese, Serge Chansraschvili, who professed such admiration for Sonia that he proposed buying her a silk gown and accompanied her to one of the city's leading silk shops.

While Sonia was looking over the various patterns, her "cavalier" slipped a bolt of silk into a great pocket especially made in the lining of his overcoat. Unfortunately for the Khirghese, the silk house had mirrors arranged in such a manner

## Quickly Drives Out All Rheumatic Poison

The first day you take Rheuma, the doctor's remedy that is selling so rapidly, you'll realize that when Rheuma goes in uric acid goes out.

It matters not whether you are tortured with pain, crippled with swollen joints or distressed with occasional twinges, Rheuma is guaranteed to end your rheumatic trouble or money back.

Rheuma is just as effective in cases of lumbago, sciatica, arthritis and chronic neuralgia.

Rheumatism is a dangerous disease. It often affects the heart and causes death. If you have it in the slightest degree get a bottle of Rheuma from Schlitz Bros. or any good druggist today and drive it from your system at once.

that detectives who were not in eight could watch the customers at the silk counter.

Sonia and her "cavalier" were escorted into the managerial offices and taken to jail after the silk had been recovered. The girl protested her innocence, but was locked up and held for trial.

It was discovered that the Khirghese had been locked up in Austria and Italy for similar thefts. Consequently, when he was arraigned for sentence, the judge sent him to prison for five years. The judge accepted the tearful Russian girl's statement that she had no knowledge of the character of the man she was associating with, but after announcing her release he urged her in the

## NEW GERMAN GAME IS CAUSE OF MAN'S DEATH

By Associated Press Action.—A new game, which has become popular in Belgium, recently resulted disastrously for the Dienst Gymnast club. One member died and 17 other narrowly escaped the same fate.

Participants in the game are locked in a motor truck and taken for a long ride. Then they are released and the first to reach a designated place is declared the winner.

Future to be more careful in selecting her male companions. Sonia departed to learn that her squeamish managers had cancelled all her contracts.

LETTER FROM SALLY ATHERTON TO BEATRICE GRIMSHAW

It has been quite a while since I wrote you, dear Bee, but I have really had nothing very pleasant to write. Of course you know that Sam is regaining his eyesight rapidly and, strange as it may seem, I think I am happier with Sam blind than I am with him seeing. I presume it is because we are both so arrogant. Sam insists that I shall do exactly as he wishes me to and I insist that I shall have some individuality and opinion of my own. We split on that rock continually.

It has almost come to an open rupture again, dear Bee, and I would be very miserable were it not Sam's cousin, Nimmie Congdon, a young man whom Mr. Hamilton took on to be Sam's secretary and incidentally Sam's eyes. The boy is charming. I have never met a man who is as unselfish. Do not write to me to be careful and do not get unduly interested in him for he is at least 10 years younger than I. I did not start this letter to write you about my own affairs. Like everybody else nowadays I am much interested in the movies. In fact that is about the only amusement that I allow myself of course Sam cannot go, consequently I seldom go to them in the evening.

I have seen a very marvelous picture lately. At least it seems to me that it is marvelous in its depiction of a woman's heart. It is called "Tramping With Hiss". It is a foolish tale, but all moving picture titles are silly don't you think?

I am writing to you about it because it is produced by Abram Elstein and it seems to me that is where Dick is working. I'd like to know more about that girl who took

the principal part. There was something about her that seemed real. I knew of course that if Dick were there he had written to you all about her.

The story is one of a girl who finds that the man she has loved for a year or two has married a girl in his own set. She sends for him just before the marriage and gives him back his letters. A few months after his marriage his wife has an automobile accident, her baby is born prematurely and they despair of her life.

The girl who has been playing in very hard luck trying to support her own child gets a chance in a large millinery store and she decides that she will give her baby to its father and the woman he married and start all over again.

Quietly one night she leaves it on their doorstep. The wife of the man is delighted. The man, who has his suspicions, has some qualms of conscience, but more fears of being found out. But he cannot help liking the baby. The girl succeeds greatly in her new work and wants her baby back and she makes overtures to the man for him.

Providentially she has kept one letter, the most compromising of all, and she tells the man she will give him back this letter if he will give her the child. Otherwise she will send the letter to the wife.

He tells her to go ahead and do it. She determines to carry out her threat by tripping his heart.

Here comes Sam with a new advertising scheme. Will finish this letter tomorrow.

(Copyright 1923, NEA Service, Inc.)

**TOMORROW:** The letter is continued—The story of Paula Perier.

## Adventures Of The Twins

A TRIP ON THE MAGIC DUSTPAN

Nancy and Nick and Tom Tucker and the balloon man all went to hunt for the lost Tweedles, Dum and Dee. They looked all over the circus grounds, where men were busy getting things ready for the big show in the afternoon.

"My goodness! It looks as though some big elephant had run off with them or some big lion had swallowed them up," laughed the balloon man, who was very good natured. "I just got some brand-new balloons from Balloon Land and I'd certainly like to find them, for time is flying and I should be out selling this very minute."

Balloon Land! Flying!

The words made Nancy uneasy. And without knowing just why, she looked up.

And what she saw surprised her so that she couldn't speak for a moment. All she could do was to point. Nick and Tom looked up and the balloon man looked up and then the circus people looked up—clowns and everybody.

"Oh! Oh! Oh!" shouted everybody. "Quick! Get the big nets! They'll fall!"

For there, up in the sky, sailed Tweedle Dum, hanging onto one bunch of balloons, and beside him was Dee, hanging onto another bunch of balloons, the sun was shining right on them and there was no mistaking who it was—Dum, in his red stocking-cap and Dee in his blue. Come down! Come down out of that!" called the balloon man.

"Dear! Dear! This is dreadful!" said the balloon man. "What can we do about it?"

Hus anybody an air-plane?"

But nobody had.

"I know where they are going!" said Nick. "They're going to the Land of Lost Balloons up in the sky. Nancy and I were there once."

Fortunately, Daddy Gander came along just then. As luck would have it he had his magic-dustpan with him.

"Please, Daddy Gander, asked your magic dustpan to take us after the Tweedle twins!" cried Nancy. "There they are, away up in the sky. The balloons ran off with them."

"How dreadful!" exclaimed poor Daddy Gander. "What if they should happen to meet Mother Goose? I'd never hear the end of it. Hop on!"

For the dustpan had begun to grow and by this time was large enough to hold them all. Away it went skyward in the direction the poor Tweedles had taken.

(To Be Continued)

## FRIDAY AFTERNOON SERMONS PLANNED FOR LENT SEASON

Congregational Church Ar-  
ranges Group of Meetings  
Leading to Easter

Friday afternoon lectures on per-  
sonal religion, Lenten sermons Sun-  
day mornings and a self-denial offer-  
ing on Easter Sunday are among the  
activities planned by the First Con-  
gregational church for the Lenten per-  
iod. Special meetings also are ar-  
ranged for holy week.

Dr. H. E. Peabody, pastor, will give  
the first of the Lenten lectures at 4  
o'clock Friday afternoon in the Chris-  
tian Endeavor room of the church.  
The topic will be, "The Hill of the  
Lord." Lectures will continue on this  
schedule for the next six weeks, fol-  
lowing chapters in the book on per-  
sonal religion and the life of devotion  
by Dean W. R. Inge. The subjects of  
the talks are: March 14, The Soul's  
Thirst; March 21, Faith; March 28,  
Hope; April 4, Joy; April 11, Self-Con-  
secration; April 18, The World.

"Christ's Challenge to Life" is the  
theme of the series of sermons which  
will be presented Sunday mornings.  
The subjects announced by Dr. Pea-  
body are: March 9, An Expanding  
Faith; March 16, Goodness; March  
23, A Child Has No Superior;  
March 30, Put Yourself in His Place;  
April 6, The Second Mile; April 13,  
Knowing His Conscience; Easter Sun-  
day, God's Will is—Life.

Among the other events are a sac-  
ramental service Thursday evening,  
April 17, with baptism of those who  
join the church Easter on confession  
of faith. On Good Friday the chorus  
choir, with soloists, will sing the or-  
atorio, "At the Cross," by Theodore  
Tomkins.

Members are asked to lay aside  
self-denial money each week until  
Easter, when it is hoped that the of-  
fering will amount to several thous-  
and dollars for special church objects.

## WANTS PEDDLER LAWS ENFORCED

Cooperation of the chamber of com-  
merce in enforcement of the state  
peddler and transient merchant law  
is asked by C. B. Ballard, state treas-  
ury agent, in a letter received from  
him at Madison.

It appears that complaints have  
been received by Mr. Ballard from  
this locality and he is arranging for  
more stringent enforcement of the  
regulations. He asks assistance in  
locating peddlers doing business with-  
out proper license and wants them  
reported to A. F. Ulrich, 415 Frank-  
lin-st., who is the authorized deputy  
for the state treasury agent's depart-  
ment for Appleton.

LINGETTE BLOOMERS FOR ONLY  
\$1.15, FRIDAY AND SATUR-  
DAY AT GREENBANK'S

## OPEN HIGHWAY FROM FONDY TO MILWAUKEE

Automobile travel is possible be-  
tween Milwaukee and Fond du Lac  
beginning with Wednesday morning,  
according to word from Milwaukee.  
Snowplows have opened the road suf-  
ficiently to permit travel between  
these cities but the going is not the  
best.

The highway has been opened be-  
tween Neenah and Kaukauna for sev-  
eral days but it still is next to im-  
possible to get through to Green  
Bay. No snow has been removed  
from the highway north of Kaukauna  
and as a result automobile traffic  
is impossible. It also is practically  
impossible to get through between  
Oshkosh and Fond du Lac.

## WISCONSIN IDEAL FOR APPLE RAISING

Waukesha Fruit Man Tells  
Farmers There Is Money in  
Good Orchards

BY W. F. WINSEY  
"Because the population of Mil-  
waukee is larger than that of some  
western states, and because the soil  
and climate of Wisconsin is adapted  
to the production of apples, an apple  
grower who locates in Wisconsin has  
an advantage over the western grow-  
er," declared F. G. Schwartz, a Wau-  
kesha fruit man in a lecture at the  
farmers' institute in Seymour.

"Milwaukee is a great apple mar-  
ket," continued the speaker. "And  
even at that, there is a possibility of  
greater development for there are  
boys and girls in the schools of that  
city who do not know how an apple  
tastes because the price is so high  
that their fathers cannot afford to  
buy them. The price of apples is  
high and the market is right here at  
home."

"Do not sell out and go to New  
York or to the west to raise apples.  
In Wisconsin you can raise as good  
apples as can be produced in any  
state of the union. The grower has  
to do the very same things in the  
west or in New York to get a big  
crop of marketable apples that have  
to be done in Wisconsin."

"Pruning, fertilizing and spraying  
are the things that an apple grower  
must do after he has selected trees  
that produce choice varieties to get a  
big crop of apples whether he lives  
in the west, or in the east, or in Wis-  
consin. I would rather grow apples  
in Wisconsin than in any other state  
because we get the quality in apples  
that the market demands with the  
least effort and are near the big mar-  
kets. The consumer is now paying a  
very high price for apples but the  
grower is not getting a just part at  
that price."

## MARCH AND APRIL GOOD TIME TO SEED CLOVER

Those farmers using the wheat crop  
as a nurse crop for clover and timo-  
thy are finding the March and April  
seeding of clover very satisfactory.  
As a rule, the timothy is seeded in the  
fall at the time of seeding the wheat,  
letting about ten pounds of timothy  
seed be scattered by the drill behind  
the hoes or disks of the drill. The  
timothy passes through the winter  
usually without mishap.

The clover may best be seeded in  
the spring. Eight or ten pounds of  
seed may be used to the acre. Usually  
a hand seeder is used. The time  
that is most satisfactory is when the  
wheat ground is in a hoey-combed

condition, due to freezing and thaw-  
ing of the ground. The seed falls in  
the little cracks and soon sprouts. Or-  
dinarily there is moisture enough for  
germination.

Money Power Course  
The next lesson of the money power

course at the Y. M. C. A. at 8 o'clock  
Sunday afternoon, March 9, will be  
presented by the Rev. H. A. Bern-  
hardt, pastor of Emmanuel Evangeli-  
cal church. His subject will be,  
"How Much Should a Man Give?" His  
talk will be followed by a 15-minute  
discussion.

# SOLITE

(REG. U.S. PAT. OFF.)

## A PERFECT GASOLINE

# Gives More Speed —More Power

**I**F you use Solite you have found that it possesses every virtue  
of the so-called "high-test" gasoline, but in addition you have  
been astonished at the added speed and the abundance of  
smooth, rhythmic power at your command.

**Query:** Why do we claim that Solite is superior to so-called  
"high-test" gasolines?

**Answer:** Solite, a Perfect Gasoline, is made by the Burton Cracking  
process, discovered and developed in the Laboratories of the Standard  
Oil Company (Indiana). By means of the Burton Cracking Process  
the non-volatile compounds of petroleum are converted into volatile  
compounds and so arranged as to constitute a perfect chain of boiling  
point fractions. The net result of this to you is Solite—it drives the  
piston the full stroke under power—it does not fall away—there  
is a steady, steam-engine-like pressure—no slapping, inefficient  
piston stroke.

The Cracking Process is the most significant achievement of the  
refining industry in thirty years. Cracked gasoline is here to stay  
because it has more power, more speed, which can be controlled.

Attempts have been made to imply that cracked gasoline is an  
inferior fuel. The truth is—it is superior. Take the recommendation  
of the Standard Oil Company (Indiana) for a try-out.

Convince yourself by actual test in your own car. You will become  
a Solite enthusiast

# STATE LOOP CHIEF SEES BANNER YEAR; MOGULS MEET TODAY

A black and white illustration of a man in a suit sitting on a bench. He is looking directly at the viewer with a serious expression. The man is wearing a dark suit jacket, a light-colored vest, and a dark tie. He is sitting with his legs crossed at the ankles. The background is simple, with some foliage and a building visible in the distance. The style is that of a classic magazine illustration.

## CHICAGO CHEESE MARKET

Chicago—The tone of the cheese market here held steady Wednesday but trade was noticeably slower than it has been for several days. Buyers were critical both as to quality and size of lots, refusing to take even a few boxes in excess of needs. Following the activity of Wednesday Longhorns appeared to demand at 22 1/2 cents, but supplies were very short.

NEWSPAPERARCHIVE

E. L. PHILIPP HERE  
MARCH 18 TO BOOST  
C. OF C. FOR STATE

Board of Directors Indorses  
Anti-Narcotic Movement  
at Dinner

Emanuel L. Philipp, former govern-

nor of Wisconsin, will come here Mar.

18 to speak at the monthly forum din-

ner of the chamber of commerce, ac-

cording to the report of the forum

committee sub-

mitted to the

board of direct-

ors of the cham-

ber at a dinner

at Vermorels

Wednesday eve-

ning. Indorse-

ment was given

to a new incorpo-

rating the

mayor's suggestion.

The mayor reminded the council

that the water commission also has

wide powers and yet it has been to

best interests of the city to have a

commission non-partisan members

with business experience. Alderman

Leppa changed the pertinence of

the illustration, maintaining that the

water commission differs from a

park commission in that it manages

a revenue producing utility.

The mayor replied that the two

boards were similar. Waterworks will

produce revenue only when properly

managed, and a park system properly

supervised will be an asset to the city

rather than a liability.

SATISFY COUNCIL

Alderman C. D. Thompson sug-

gested that a park commission might

function in a manner satisfactory to

the council in spite of the powers con-

ferred upon it by the legislature.

Washington, A. total of \$452,115 still

needed. It was felt that Appleton

should not be burdened with a drive

for the Thomas Jefferson home pur-

chase fund of a million dollars, and

its indorsement therefore was de-

clined.

R. E. Carneross, chairman of the

publicity and convention committee

announced that John C. Bonini had

been elected vice president for Outa-
